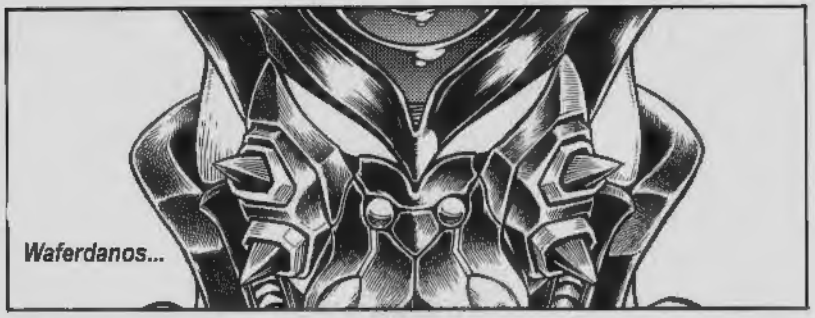
yentsui?!
!!
urgh...

for how long....
Thanks to the zoacrystal, he's still alive, but...

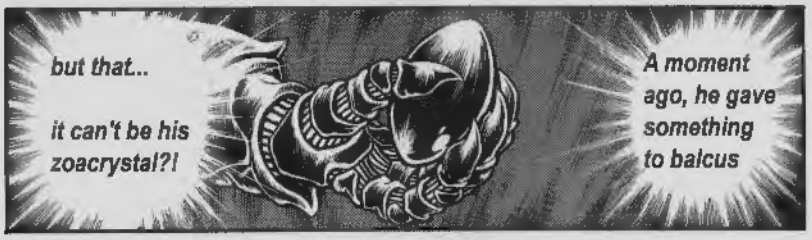
no these are different from zoanoid...
His Hair has mutated into zoanoids?
urgh...

Guyver Advocacy

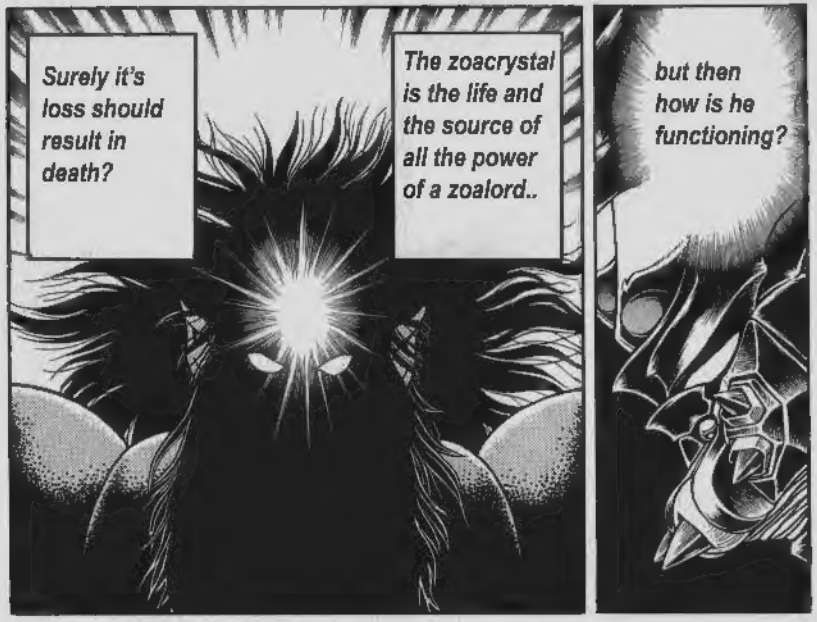
!!



Waferdanos...



but that...
it can't be his zoacrystal?!
A moment ago, he gave something to balcus



Surely it's loss should result in death?
The zoacrystal is the life and the source of all the power of a zoalord..
but then how is he functioning?

Instead it seems that the surface has been covered by something akin to the roots of a tree....
Once his hair had fallen, I believed the relic of the Uranus would be uncovered.

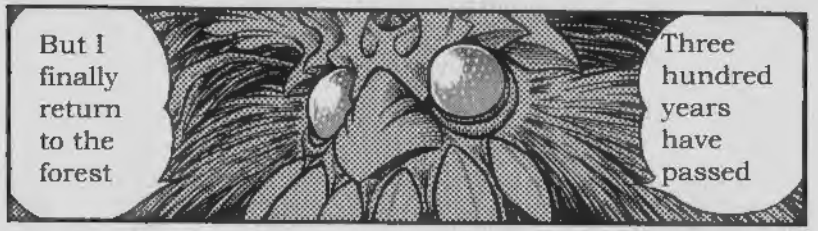
What?
But...
What the hell is this?!

Guyver Advocacy

WAFERDANOS
!!!
Our
Kingdom
...

King...
Oooh..
Oh...
Our
precious
king...

.....



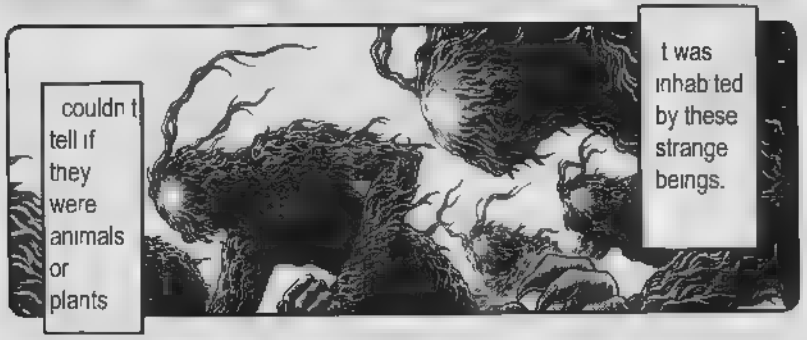
But I
finally
return
to the
forest
Three
hundred
years
have
passed

Normally, a zoalord is processed using the same procedure as a zoanoid...
and receives the actual power at the last moment, when the zoacrystal is inserted in the forehead..
.....
Waferdanos is different from the other members of the divine..
Even now...
It must have been at least three hundred years now...
since I met Waferdanos for the first time.

And has become a jungle..
In moments, the inside of the cave was covered in trees...
Uh...
This power from a zoalord who lost his zoacrystal?!?
This...
WHAT THE HELL ARE YOU !?
WAFERDANOS

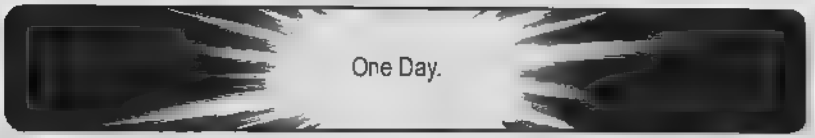
In this green covered island
and then

I found them!

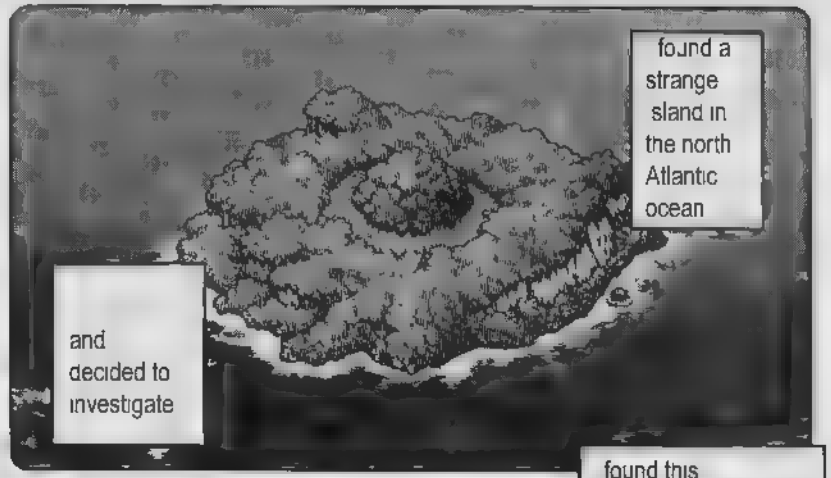


couldn t tell if they were animals or plants
t was inhab ted by these strange beings.

to form a group of 12 zoalords capable of leading our organisation
back then, I travel ed the world in search of men of great talent

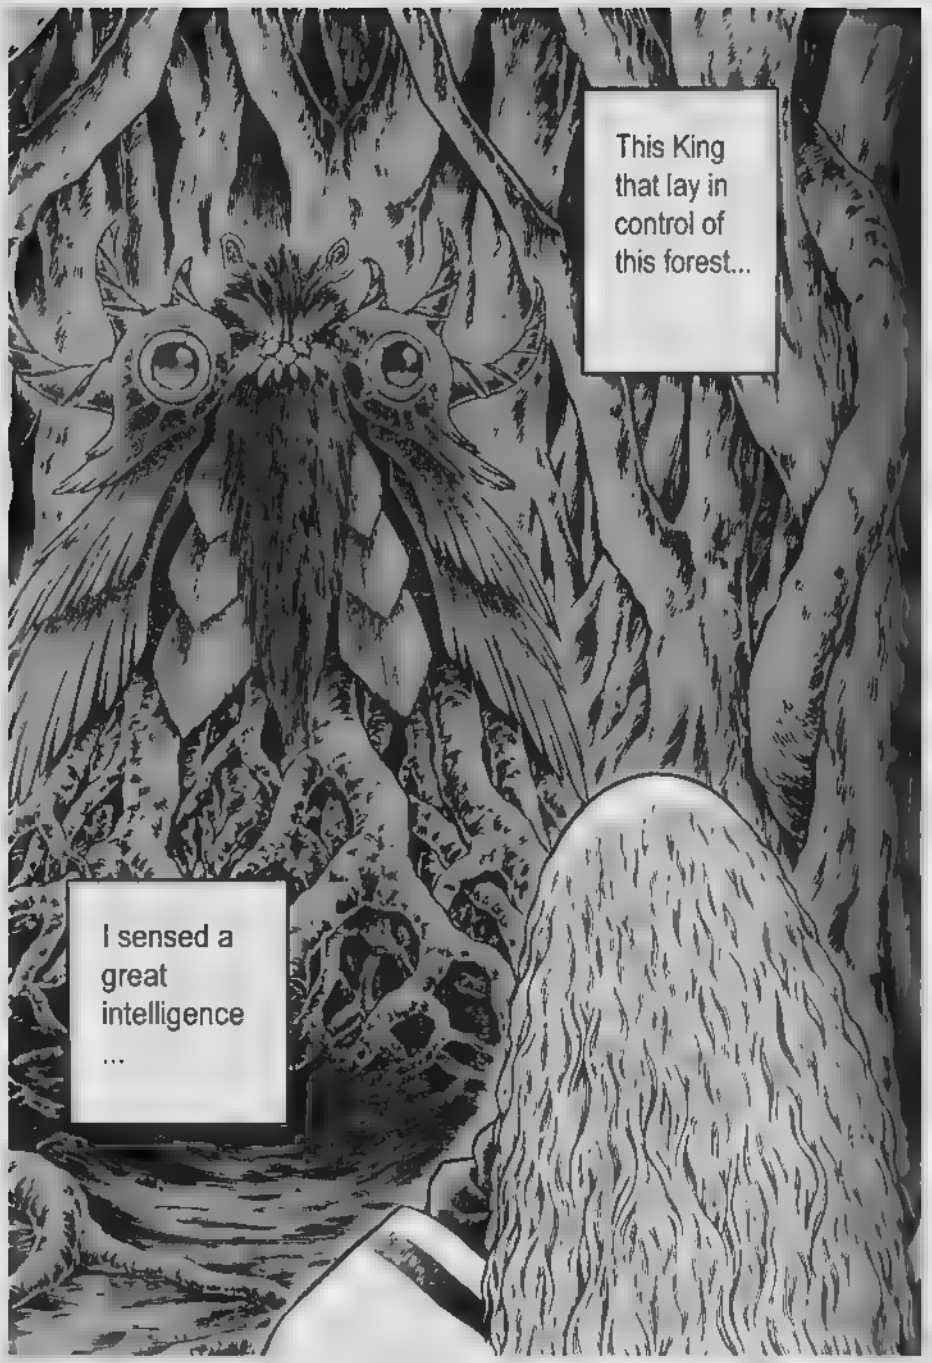


One Day.

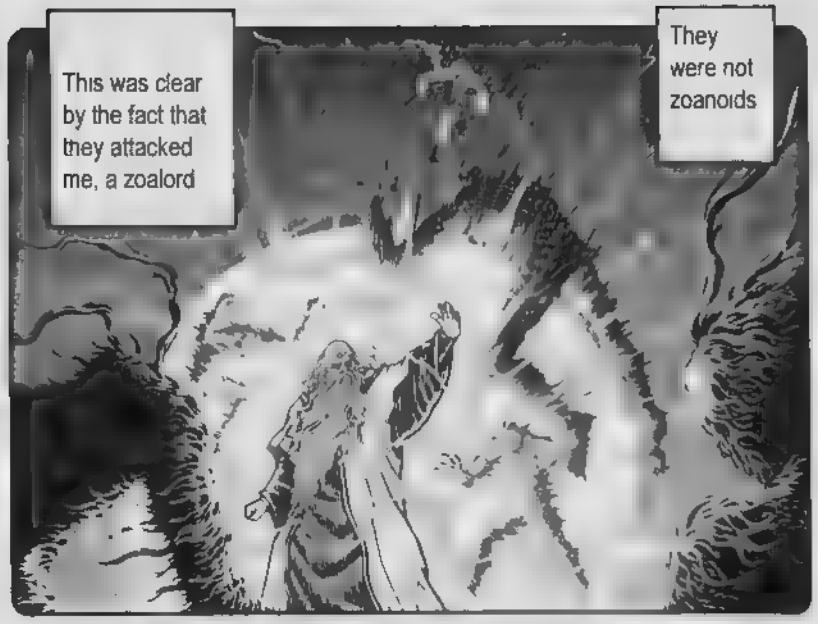


found a strange sland in the north Atlantic ocean
and decided to investigate

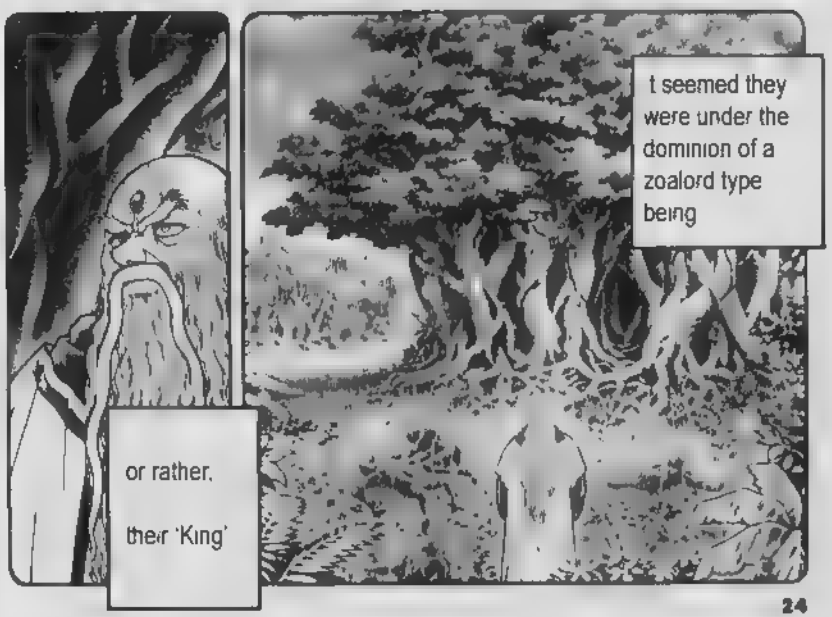
found this interesting because of the similarity of the environment to that of Silha



This King that lay in control of this forest...
I sensed a great intelligence ...



This was clear by the fact that they attacked me, a zoalord
They were not zoanoids



t seemed they were under the dominion of a zoalord type being
or rather, their 'King'

But the relation between them was very much like that between zoalord and zoanoid

They were given plant-like features and they formed a community composed of a king and its servants

I imagine they were born many years before Alkanphel, our leader

In many ways

their power was great

decided to entrust this king a zoacrystal and granted it entry into the divine 12.

That it was moved to this island in now remote times and abandoned by its owner

and he told me

I managed to contact him via telepathic waves

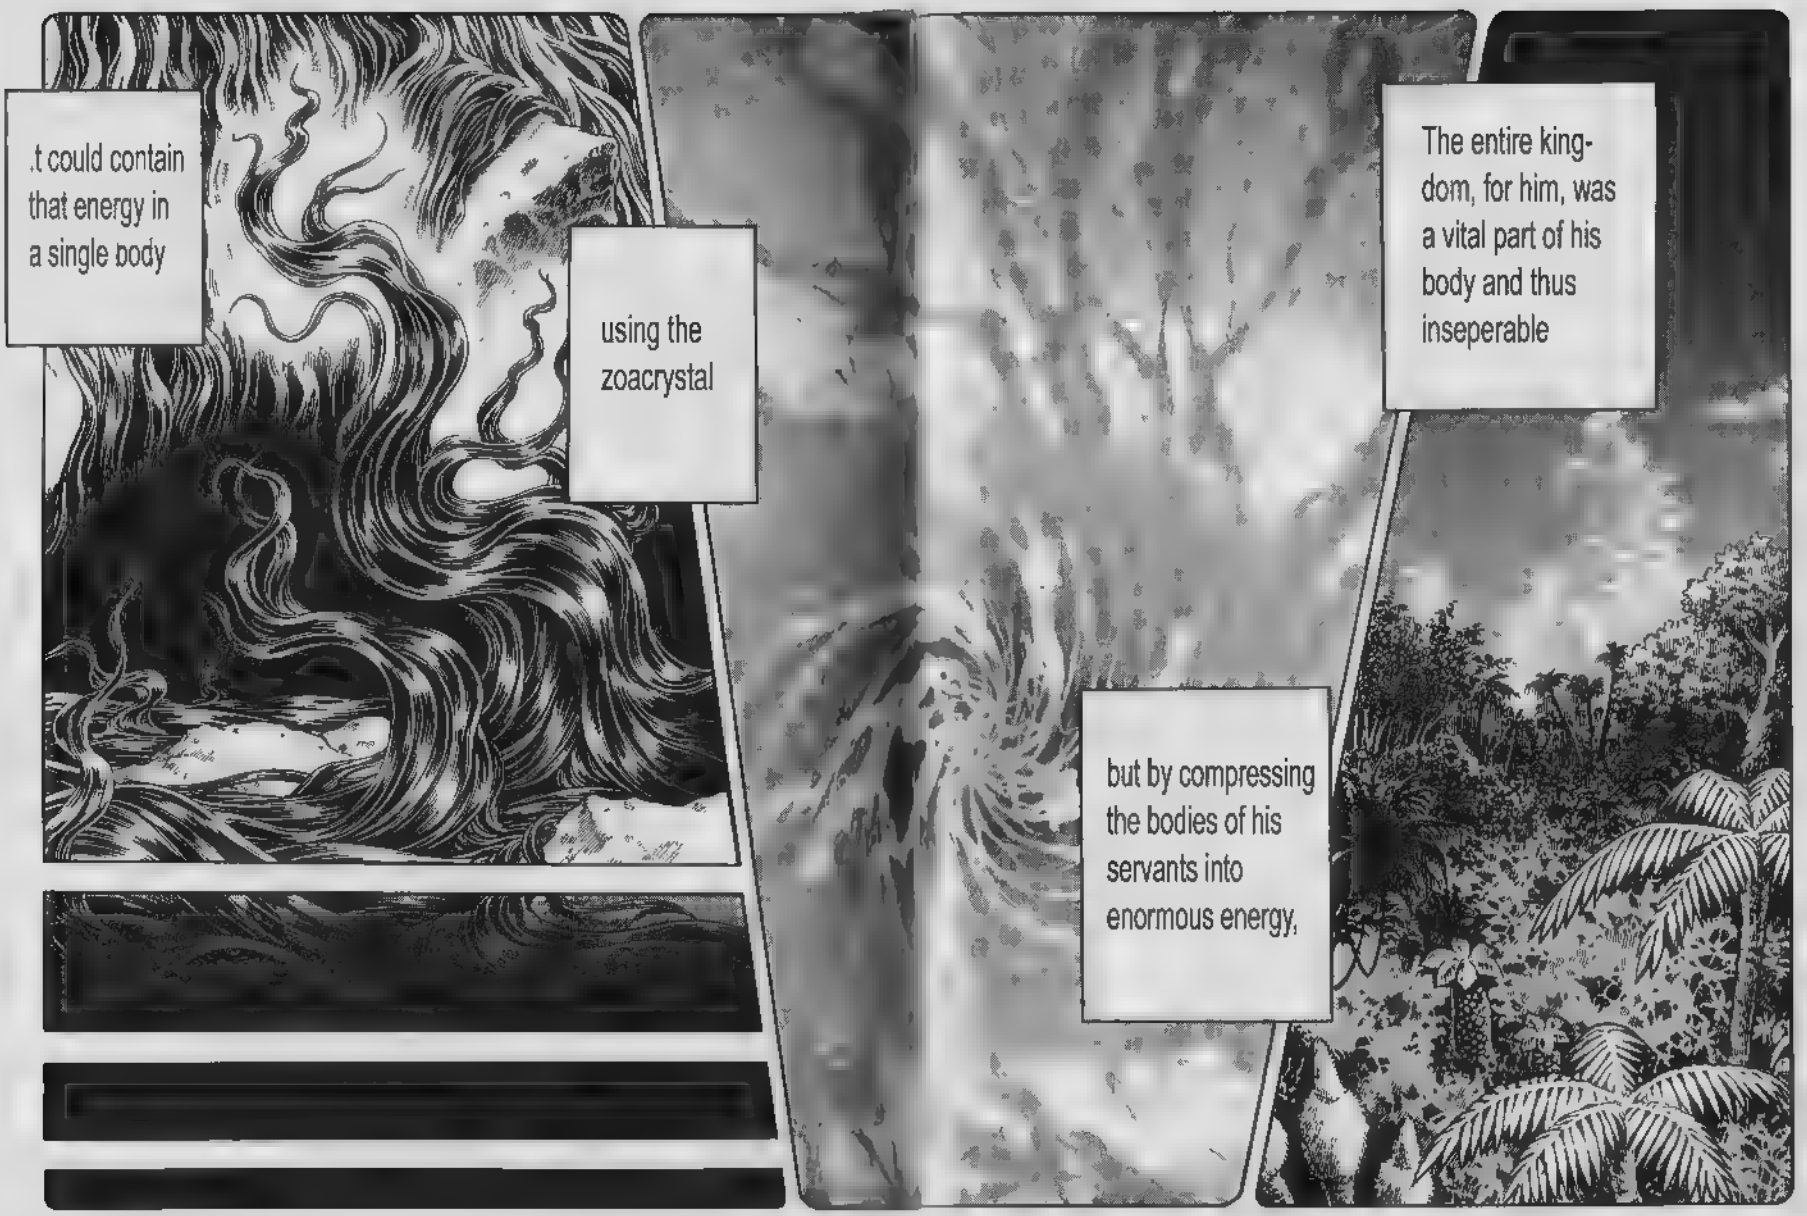
They were very alike to the inhabitants of Silha

understood all

They must have been the same proto-type

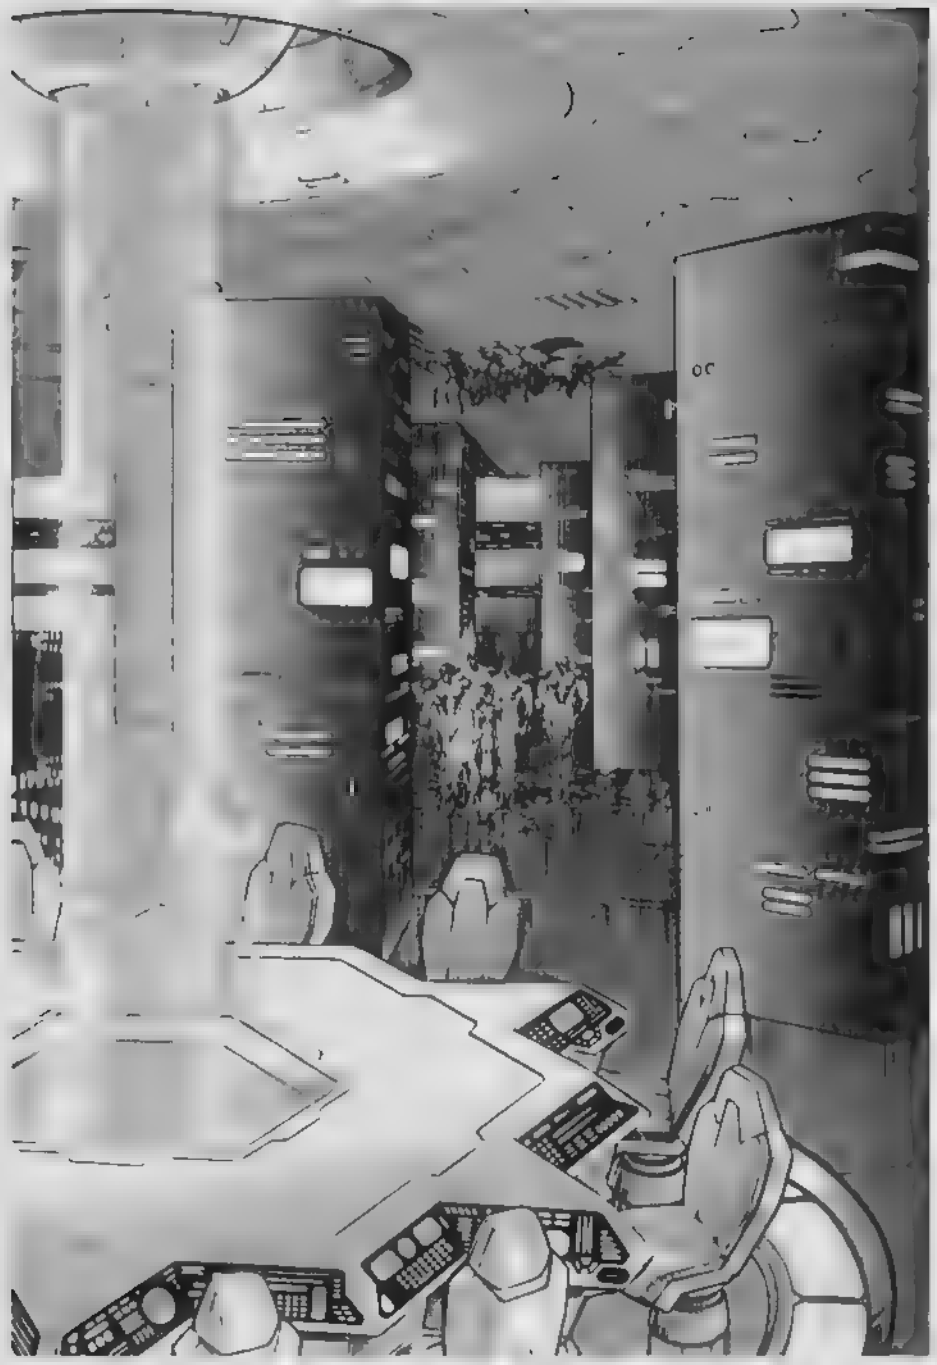
They were bred by the ancient visitors during the development of bio-weapons

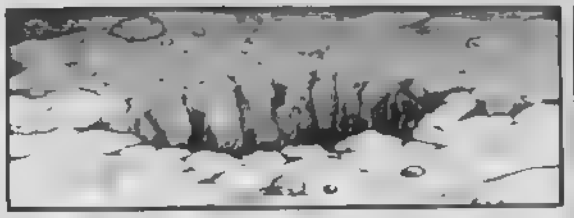
Guyver Advocacy

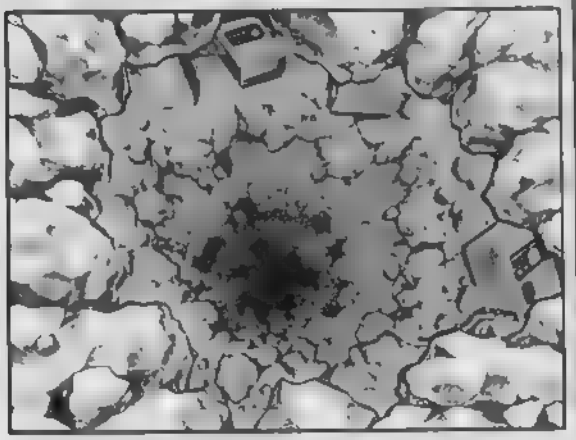


.t could contain that energy in a single body
using the zoacrystal
but by compressing the bodies of his servants into enormous energy,
The entire kingdom, for him, was a vital part of his body and thus inseperable

第135話 "臣民"跳梁!!
DOMINEER OF THE SUBJECTS







must be the offices of the highest class of managers.

what is on this floor?

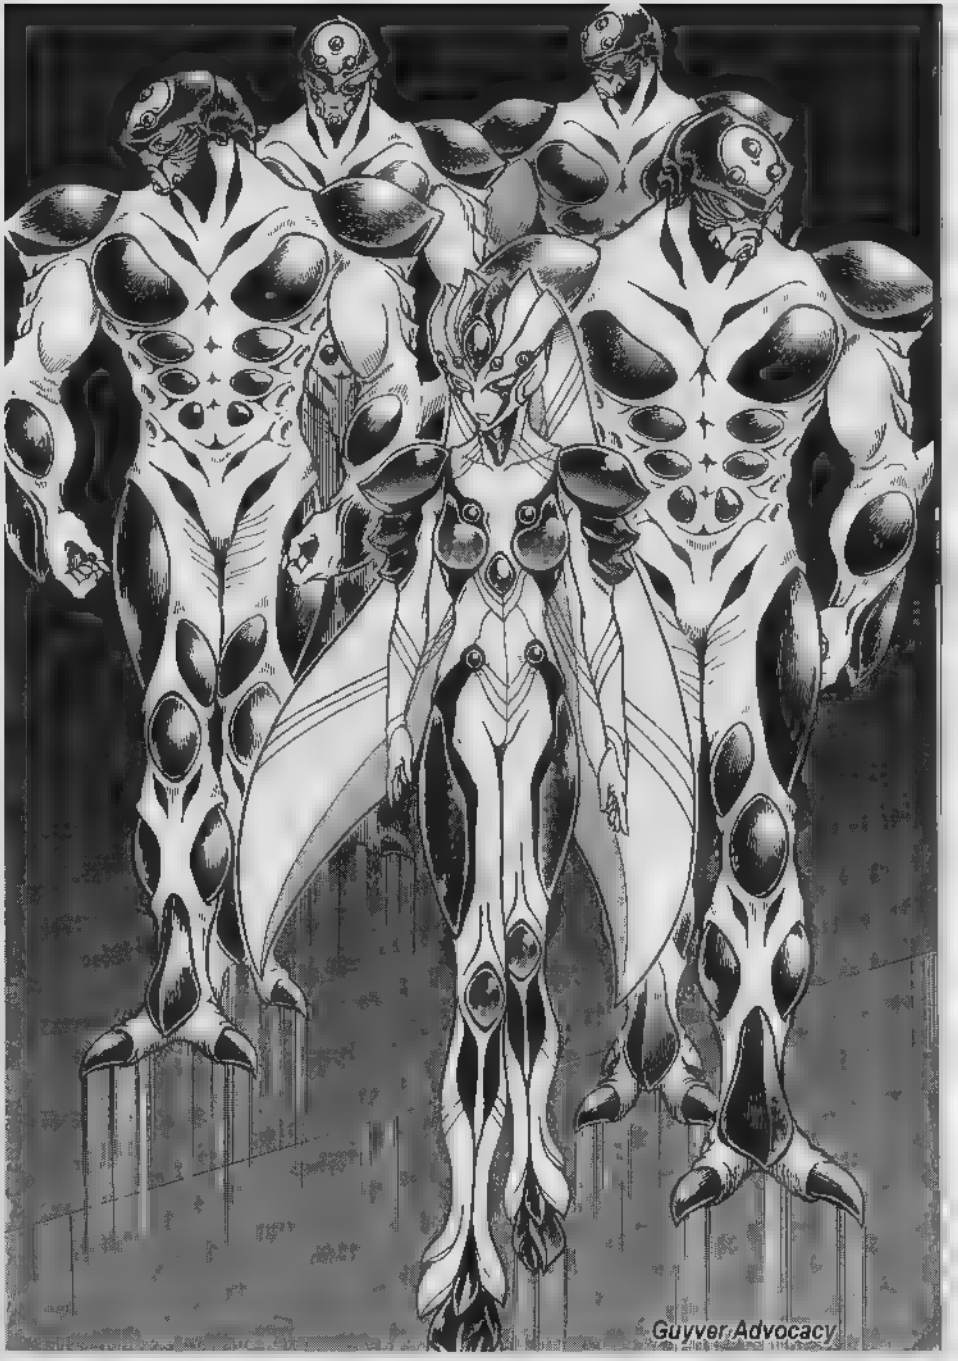
I expected an ambush or at least some small resistance however....

Master Agito has been through here ..

what's going on?

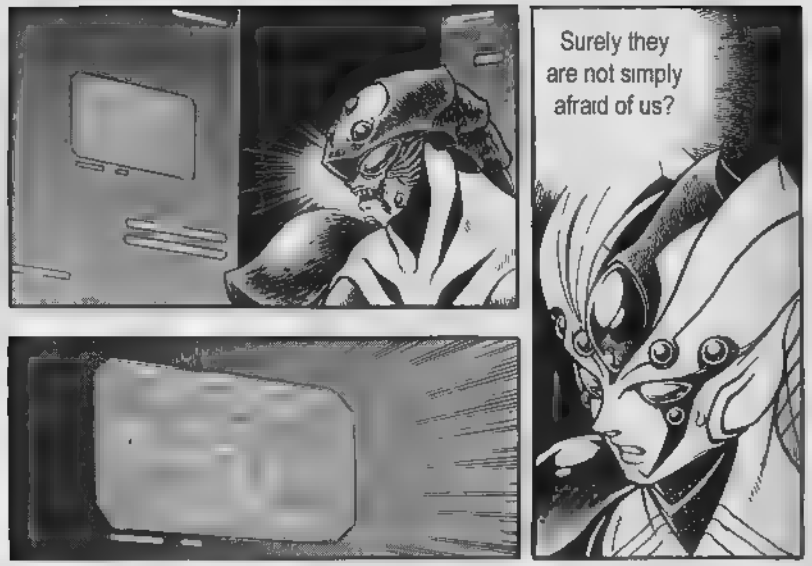
even deserted ..

It is hardly protected .

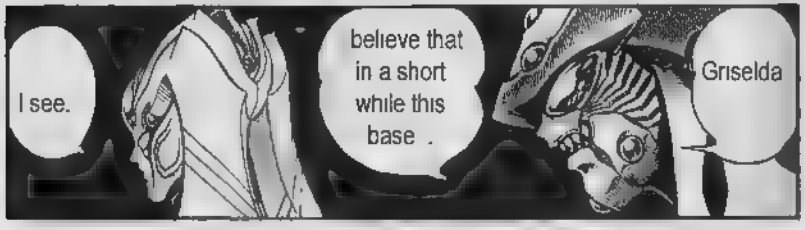


Even stranger
I can sense no zoanoids within two kilometers.

had no combative spirit and instead they turned tail and fled
also anyone that we bumped into on the way here

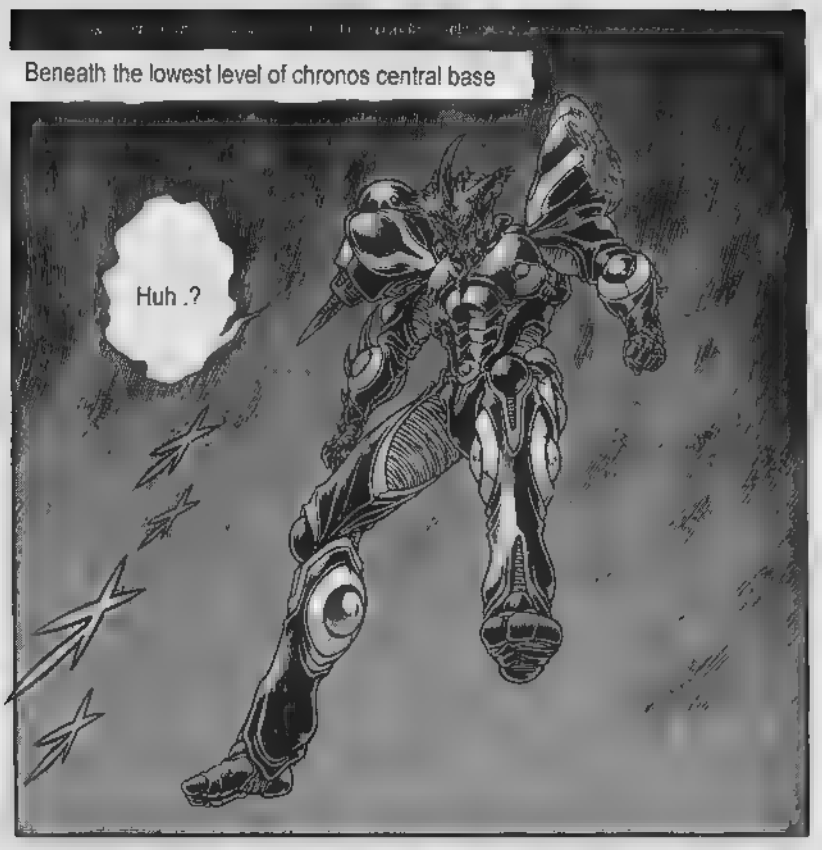


Surely they are not simply afraid of us?

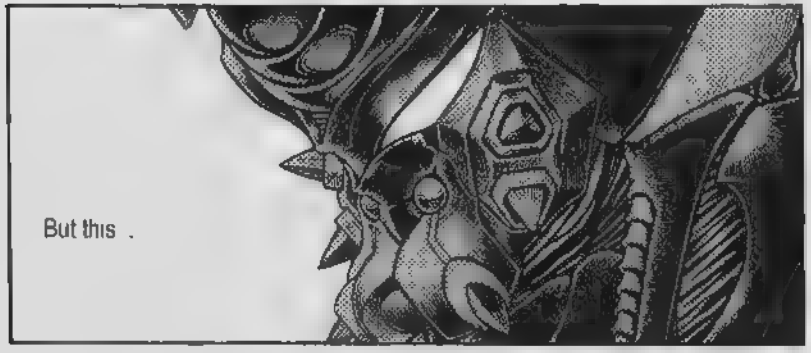


I see.
believe that in a short while this base .
Griselda

Then we must hurry!



Beneath the lowest level of chronos central base
Huh .?



But this .

I should get to Master Agito as soon as possible!

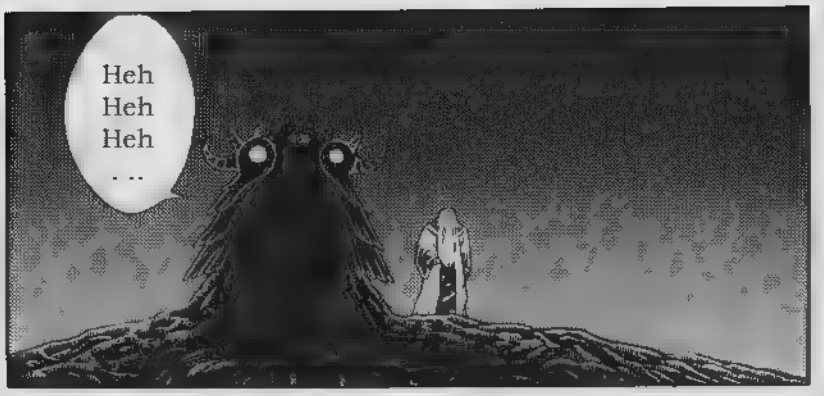
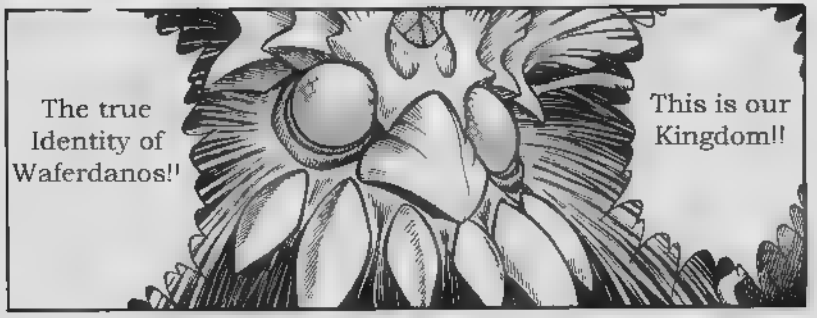
Our precious king...
Kuu...

Our kingdom just revived from the eternal sleep.
Now it should finish its sole duty!
Listen to me My subjects!



Heh
Heh
Heh
...

Are you speech-less through surprise?!
do you see, Gigantic Dark... or rather, Agito Makashima?!

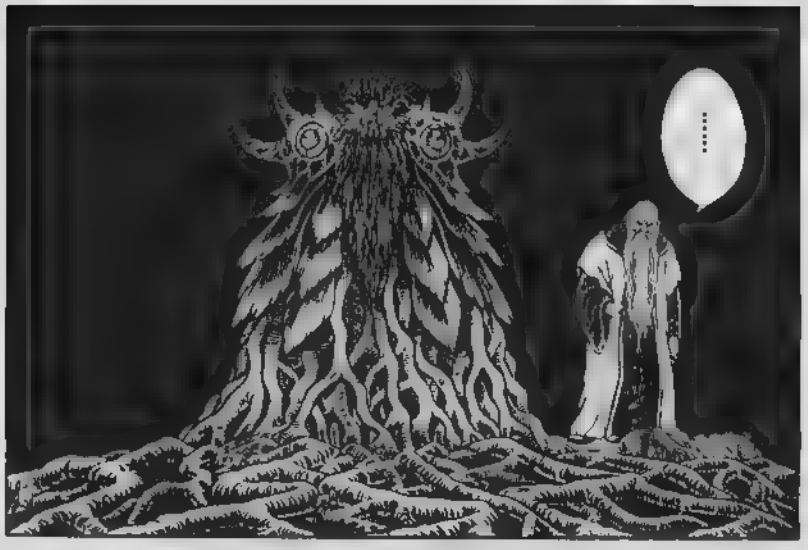


The true Identity of Waferdanos!!
This is our Kingdom!!

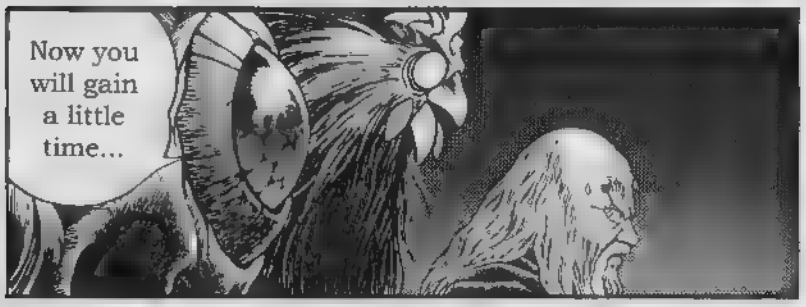
!!

That invader..
To destroy..

Our enemy gigantic dark!



.....



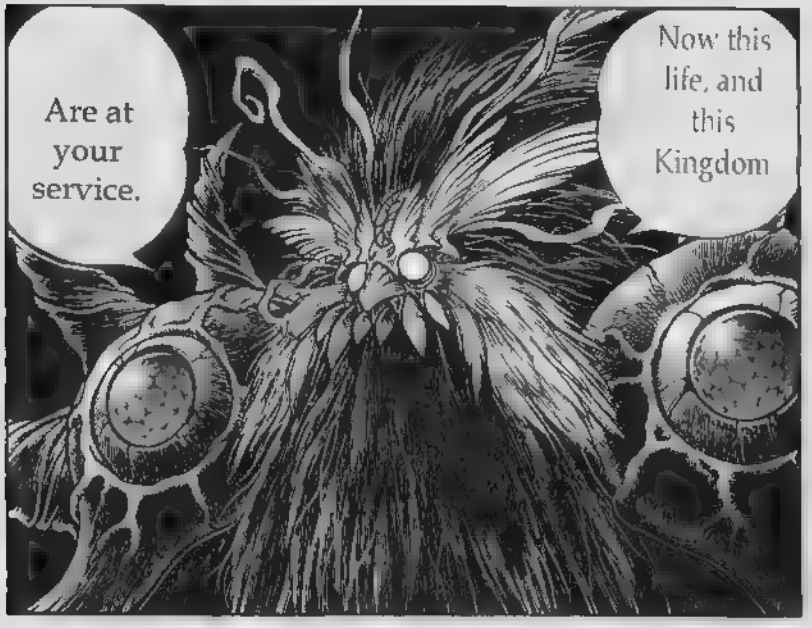
Now you will gain a little time...

This is my Task, doctor Balcus...
.....

Wafer-danos, but you

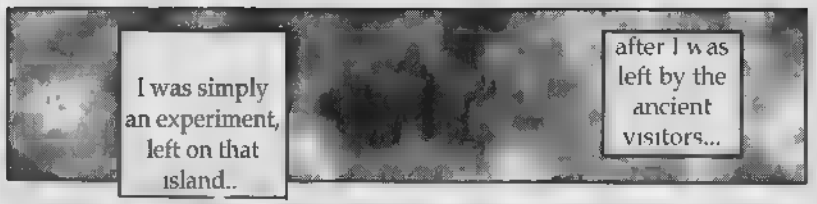
What?!
They melted... FROM the trees?!

This is already more than enough
You have given me a life I can be proud of
And in doing so



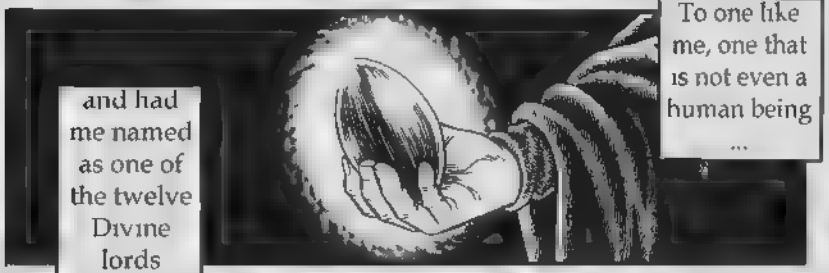
Are at your service.
Now this life, and this Kingdom

Forgive me...
Waferdanos



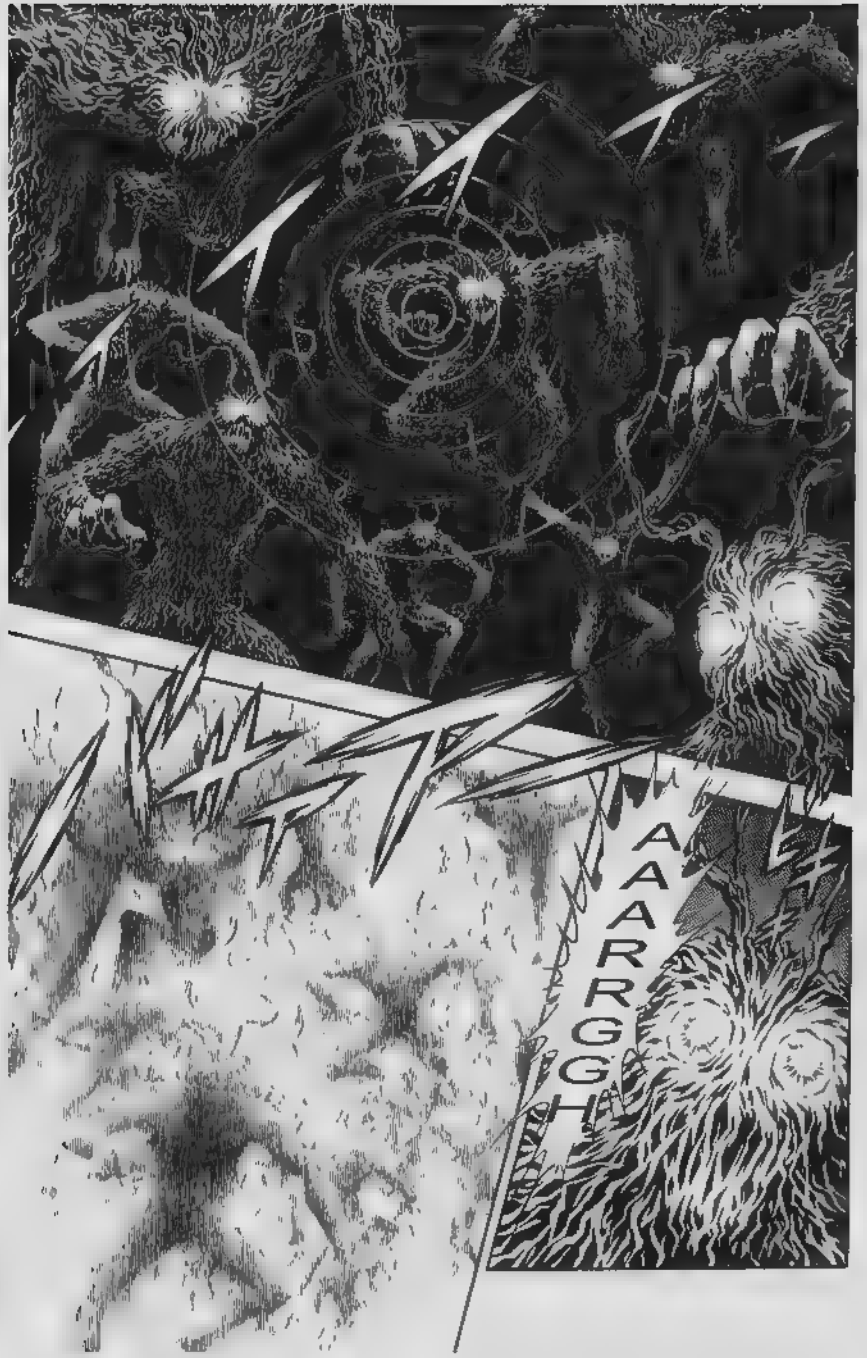
I was simply an experiment, left on that island..
after I was left by the ancient visitors...

Doctor Balcus, you..
you have shared the power of the zoa crystal..
If, at that moment, I had not met you Never would I have known the world outside that island
and I would never have even considered who or what I really was.



and had me named as one of the twelve Divine lords
To one like me, one that is not even a human being ...

Urgh



AAARRGGH

They just don't stop
What the hel are they?
Defend
Crush
Sonic Buster !!!!!

NOW!!

The colony has weakened them?
It seems coordination is half that of the hair...
.....
I cannot confront them a few at a time
In any case

第136話 監視者の信条
THE FAITH OF THE GUARDS

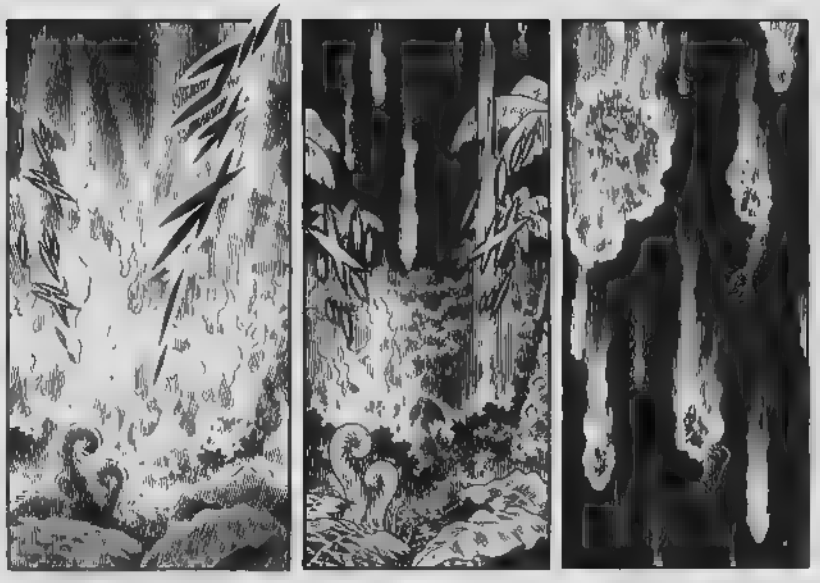
KUH...

Curses ..
He doesn't attack the subjects that jump at him, but burns the forest with the heat beam!!!
I will stop you using that heat beam!!
NO!! I won't allow it!!
Hoh!

is now a threat to you!
Heh Heh, also, it seems. this entire kingdom.

Urgh .
!!!

BURN...
It is useless to resist, Balcus!!



I did not realise it would burn so well!!
Oh-Ho!
The forest and the subjects...
urgh .

BURN

WAFERDANOS
AND YENTSUI!!!

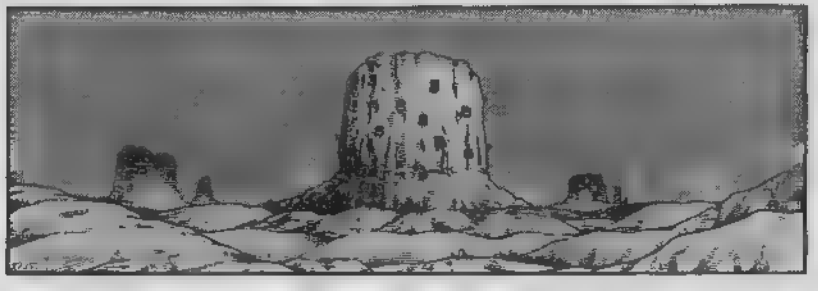
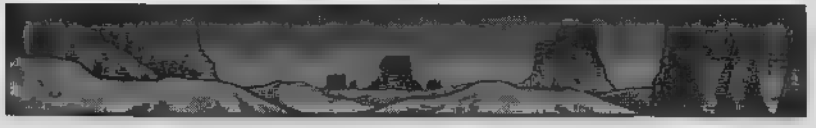
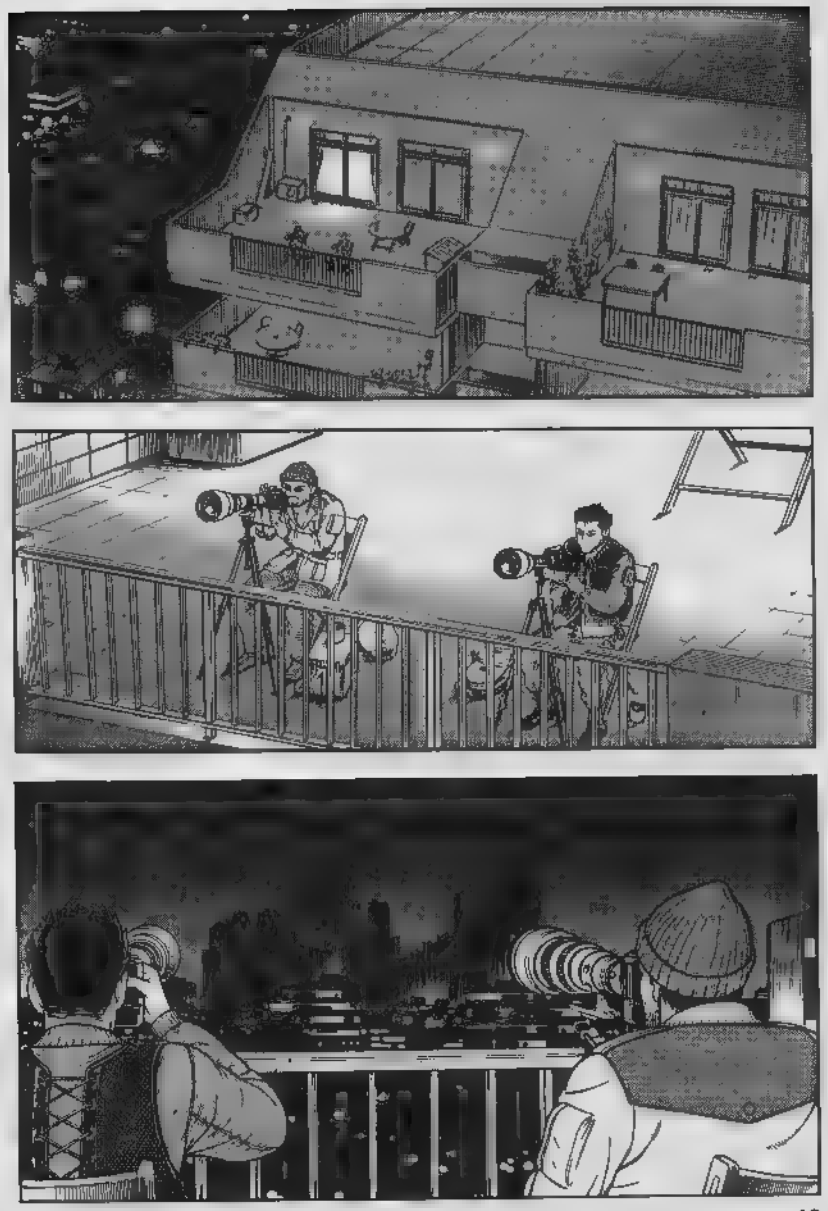
meanwhile, in Nagano - Tokyo



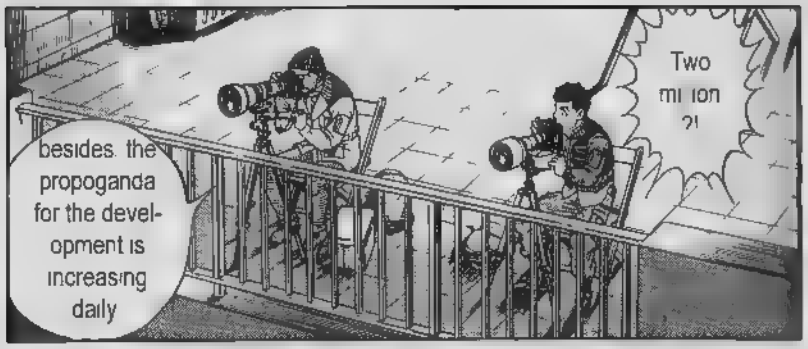


Aah
Aah
It's the end of December
uhhh It's freezing
and by the way.
I know that from this distance, it is impossible to observe better
even with my most sensetive telephoto lens, I only managed to see some beam



Guyver didn't abandon it's friends ..
I'm sure of it
No, . think I have something
and I think it is pretending to have fallen into a trap
actually It is continuing to fight
You said that guyver s a human being?
also before
Eh?
Why support Guyver, Sempai?
Ehm But why so much support

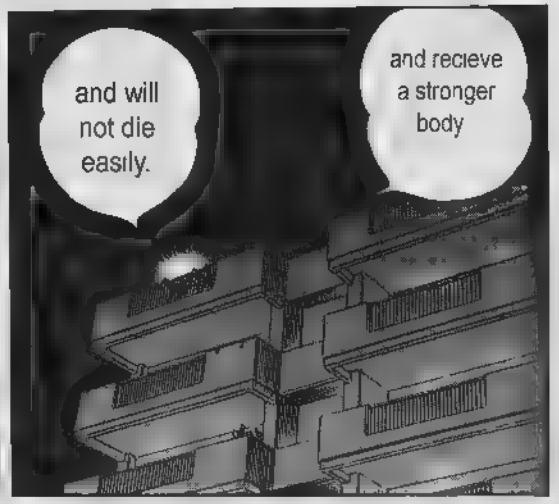
I don't blindly trust what chronos say...
but
Naturally, also I
the world has started to work really well.
since we have been under their repression
besides
the world economy is strong
and welfare has improved
there is no more international conflict



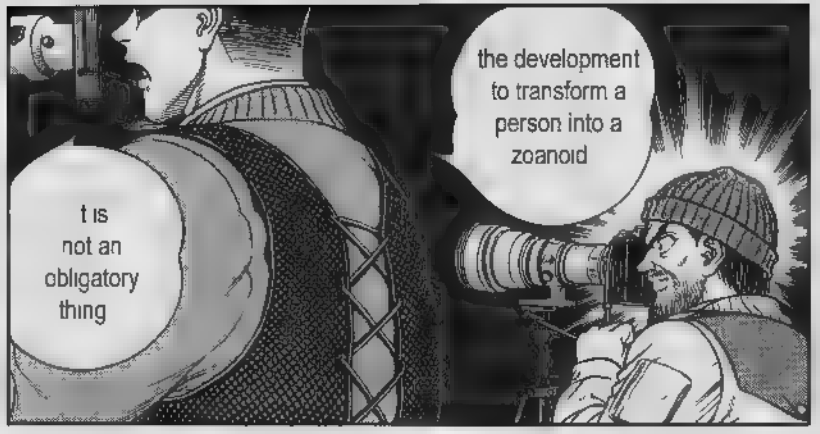
besides, the propoganda for the development is increasing daily
Two million?!

He who has become a zoanoid is in the best position for finding a job.
They can enjoy special treatment..
It may not be obligatory but

oh
Thats a real promising future



and will not die easily.
and recieve a stronger body



It is not an obligatory thing
the development to transform a person into a zoanoid

did you know, Tokiwadaira

There are more than two million residents that have been turned into a Zoanoid!
at this moment, in all of Tokyo...

Now the world is at peace
these days, there is no crime apart from the terrorism that surrounds guyver
you know, sempai

OH
!!

Apparently it seems that way. right?
peace eh?

Did you already forget that scene on the hill of Akarigaoka?
?

It'll be really dangerous if the population becomes tamed as easily as you!!
Think about it hard!!
IDIOT!

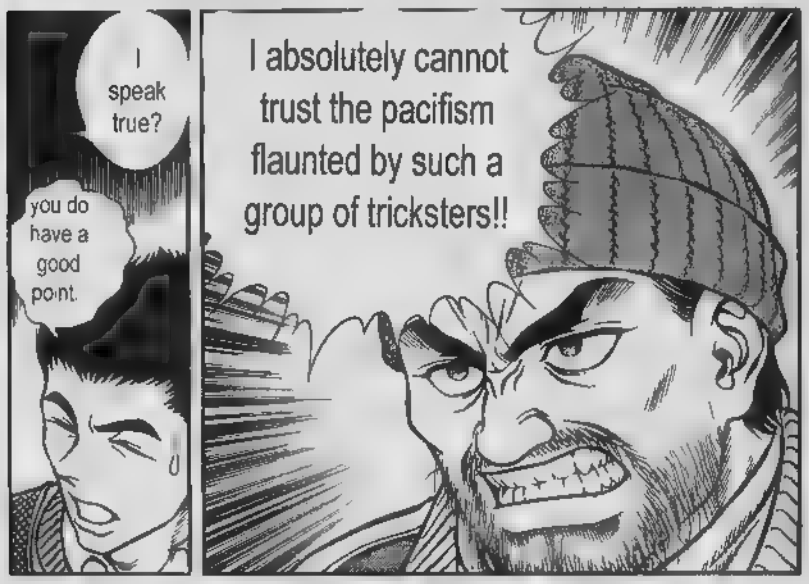
All those promises are nothing but talk .. I don't think we can fully trust all that they say.
I'm sure there is some big secret behind the zoanoid development

certainly that *doesn't inspire trust in of itself,* but...
The establishment of the planetary *state and the expansion towards the stars.. didn't they say so?*

That internal struggle between the twelve dimensions, the highest managers of cronos... We saw quite clearly when... The arcalord killed one of their own, eh?

.....
Sempai, speak quiet.
Shhh!

It is not normal to surprise attack a companion, especially if they just experienced a fight with guyver..
I do not know of the problems between them... but.



I speak true?
you do have a good point.
I absolutely cannot trust the pacifism flaunted by such a group of tricksters!!

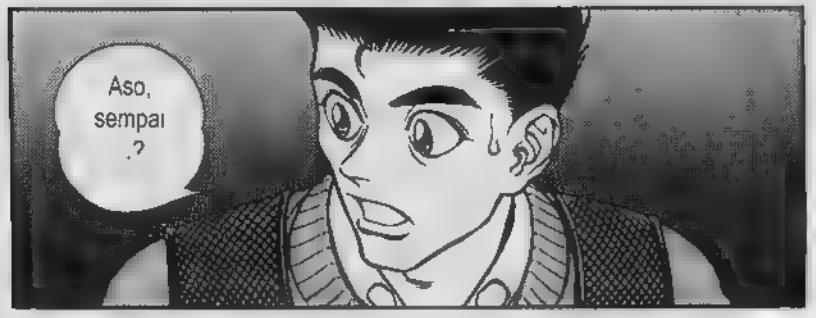
before development, they were simple human beings like us right?
furthermore, those 12 zoanoids call themselves the Divine beings but

They all have human faces, and that cannot be ignored
I don't know who the heck they are, but...

keep your voice down .
Sempai
if someone heard .

the truth be said, Tokiwadaira...

in their true identity
to be as interested as I am
I do have a clear reason ..



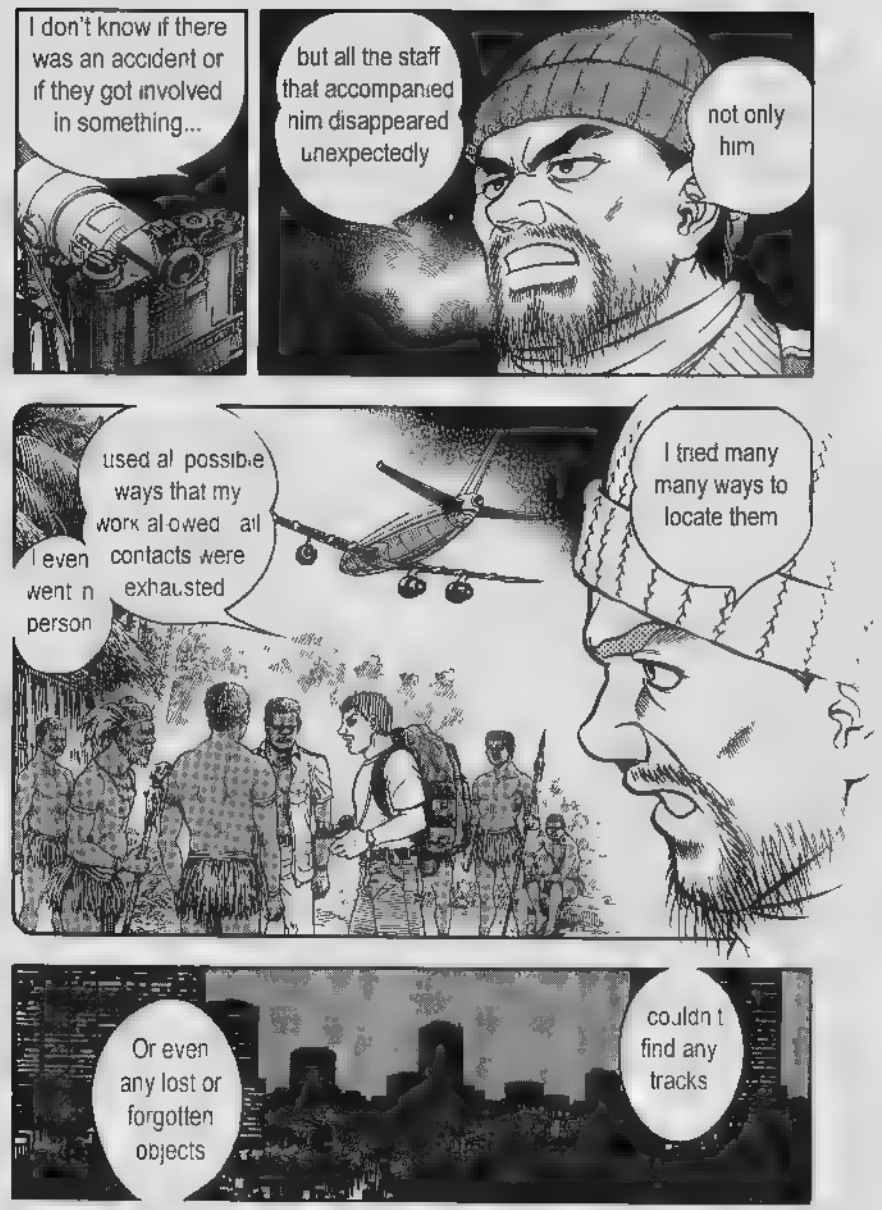
Aso, sempai .?

第137話
仮面神将の素顔
TRUE FACE OF ONE DIVINATA
Indeed
It was seven years ago
Guyver Advocacy

then he was in our profession too?
oh
Then i recommended him to the company when he was looking for work
we used to go out of a night
but whilst I wrote he did special correspondance for the magazine overseas
Definately
at that time, he stayed in the heart of new guinea for a job
since then recieved no news

Seven Years ago
He was a friend of mine
and although he was 2 years below me, we got on pretty well together
we met in university
a friend?

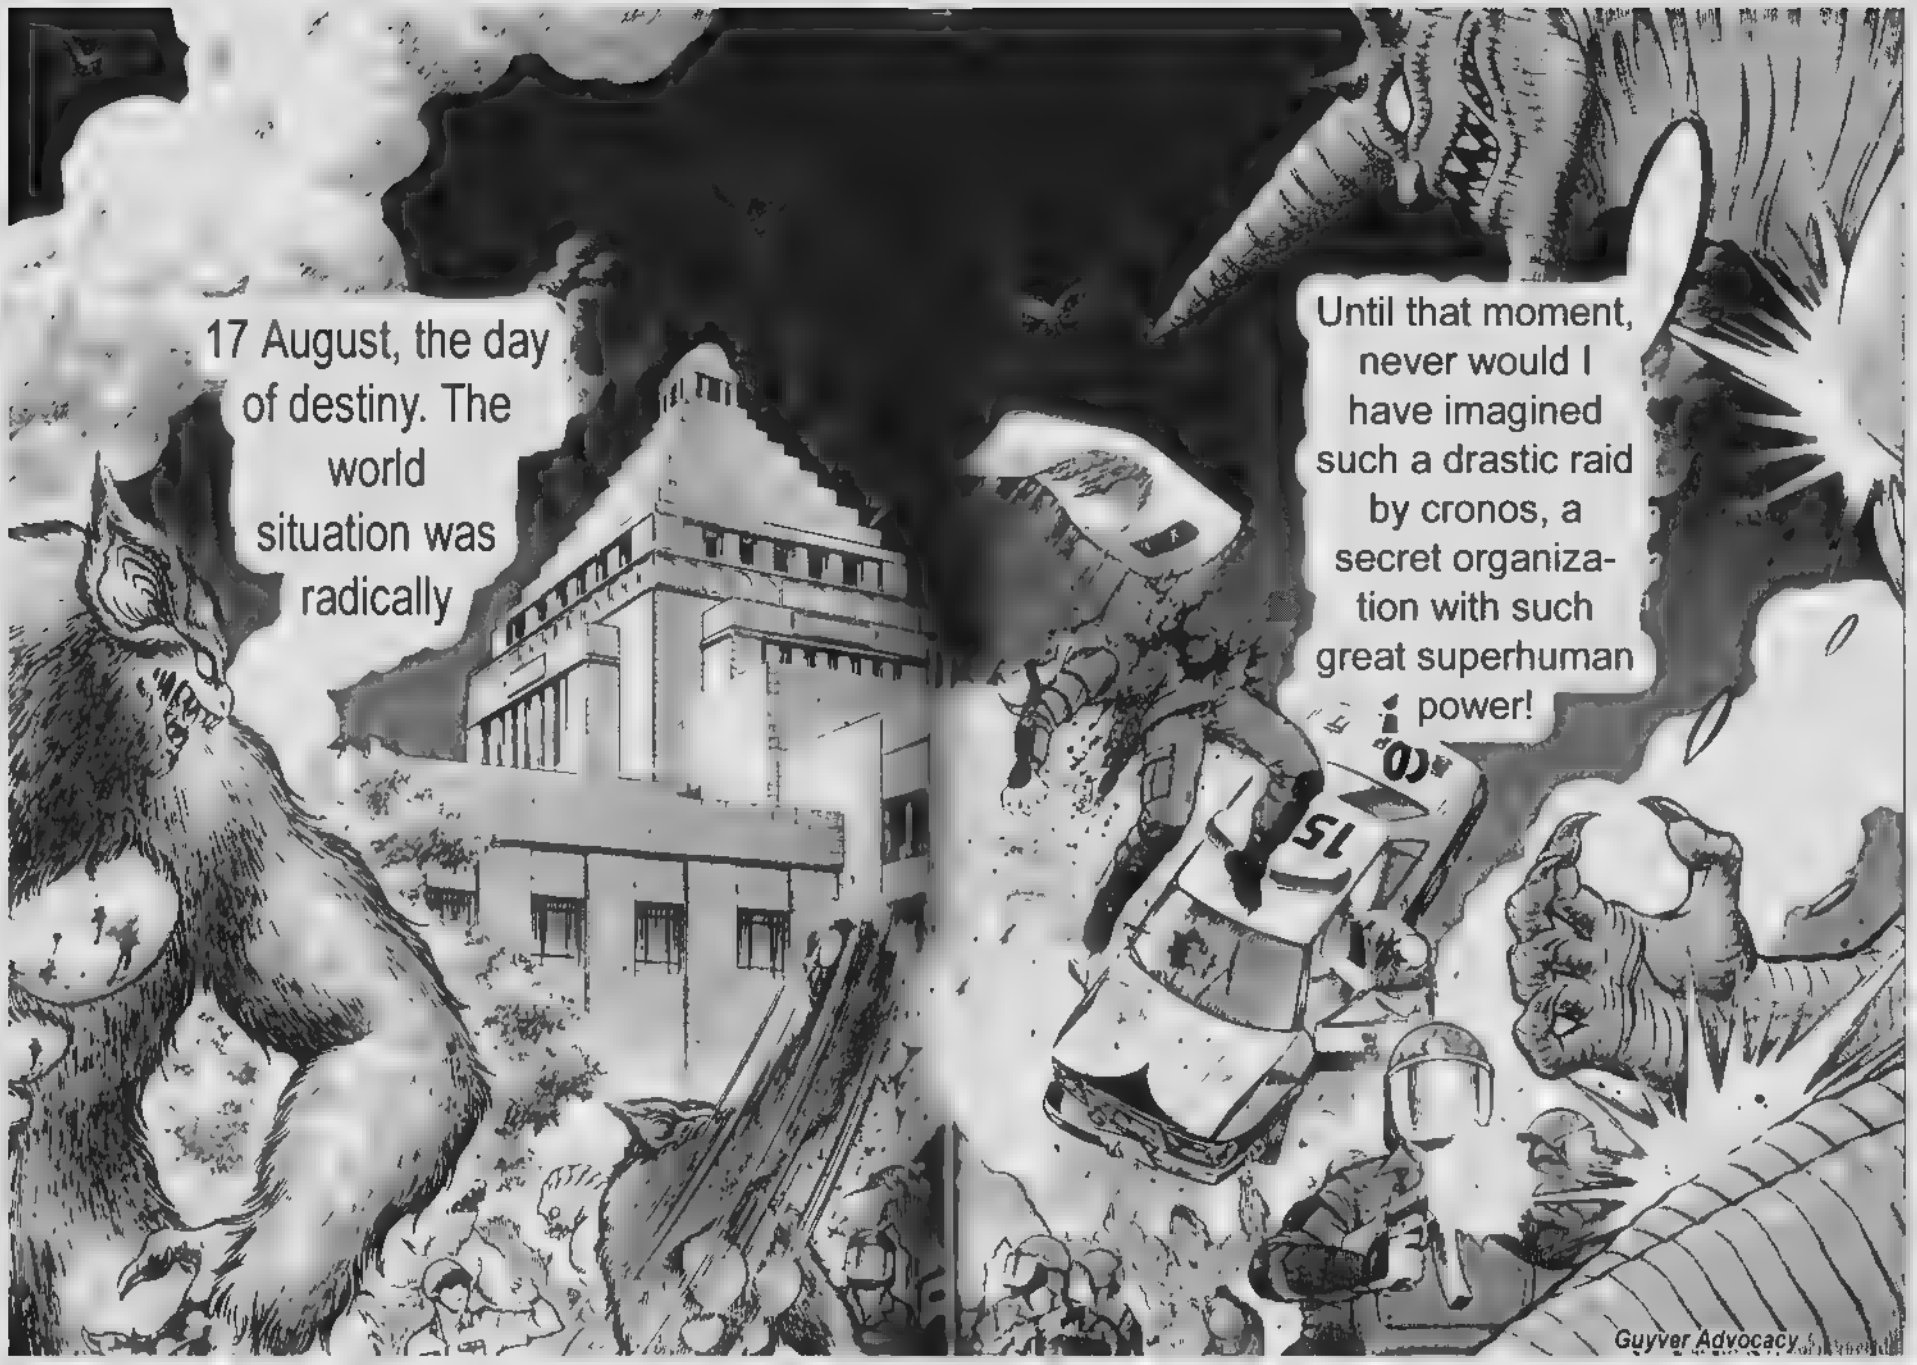
was some-thing about an 'Eerie Cry'
when searching for any information ..
the only thing we heard
they said that in the forest, a fiendish demon made frequent appearances
Eerie cry ??
A monster with the face of a bird and one that looked like a ferocious animal.
apparently somebody had seen this 'fiendish demon
!!



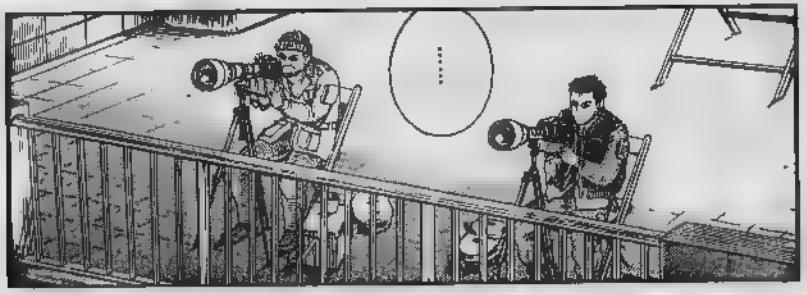
I don't know if there was an accident or if they got involved in something...
but all the staff that accompanied him disappeared unexpectedly
not only him
I even went n person
used al possible ways that my work al owed all contacts were exhausted
I tried many many ways to locate them
Or even any lost or forgotten objects
couldn t find any tracks

That completely unexpected War of repression!

The spirits had gotten angry
and of course, they sent the monsters to attack us
In the end, they blamed us. the outsiders that had forsaken the sacred forest
and then
5 years later, in the summer
STUDIO ALTA
In the end, we couldn't get any more information.
of course I wasn't at all convinced
but I had no choice but to leave new guinea



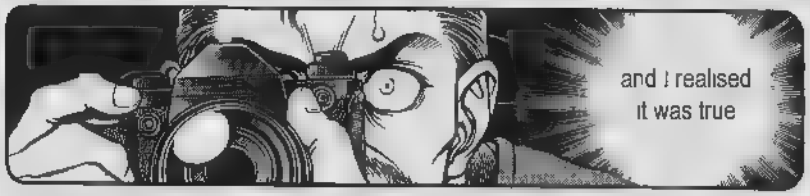
17 August, the day of destiny. The world situation was radically
Until that moment, never would I have imagined such a drastic raid by cronos, a secret organization with such great superhuman power!
15
Guyver Advocacy



.....

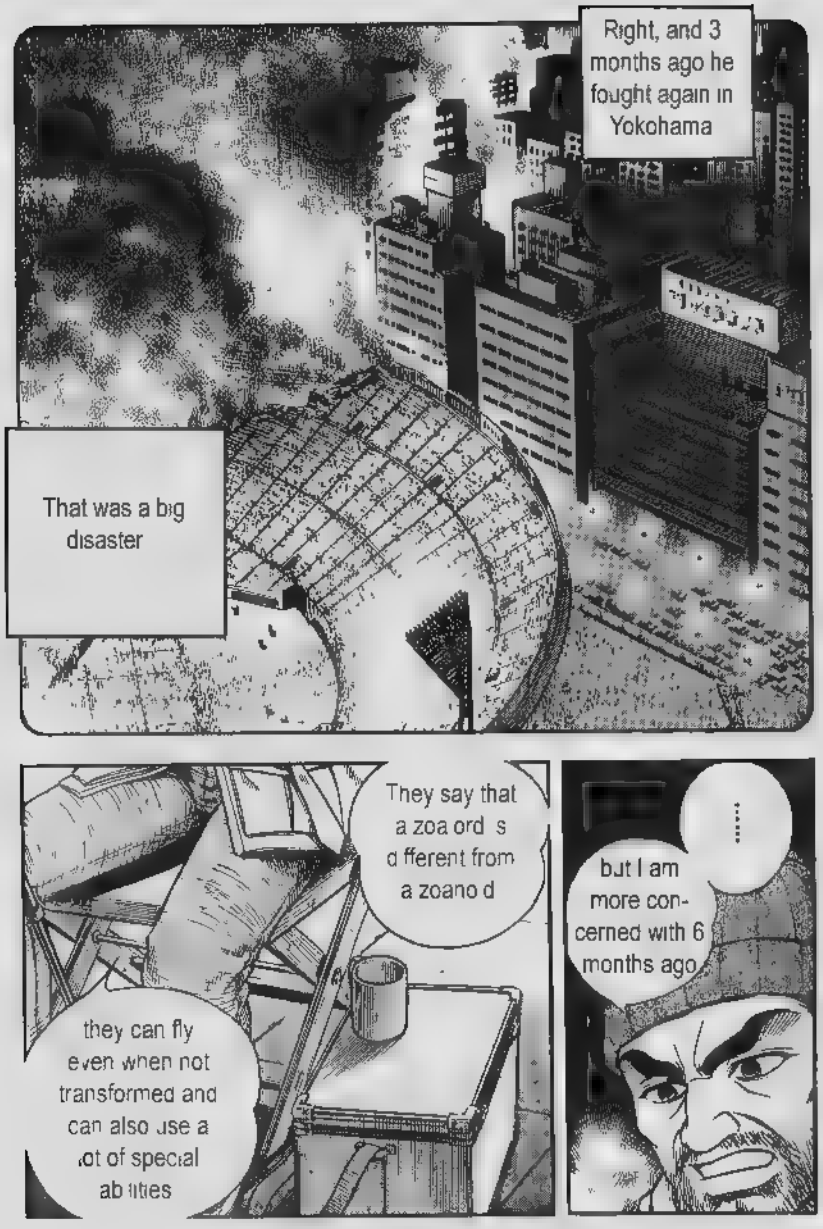
and so
He is so suspicious of cronos
just because

knew for the first time about the zoanoids
While society was in uproar



and I realised it was true

It had been cronos
these zoanoids certainly had something to do with the monsters we heard tell of



Right, and 3 months ago he fought again in Yokohama
That was a big disaster
They say that a zoa ord s d fferent from a zoano d
they can fly even when not transformed and can also use a ot of special ab lities
but I am more con- cerned with 6 months ago

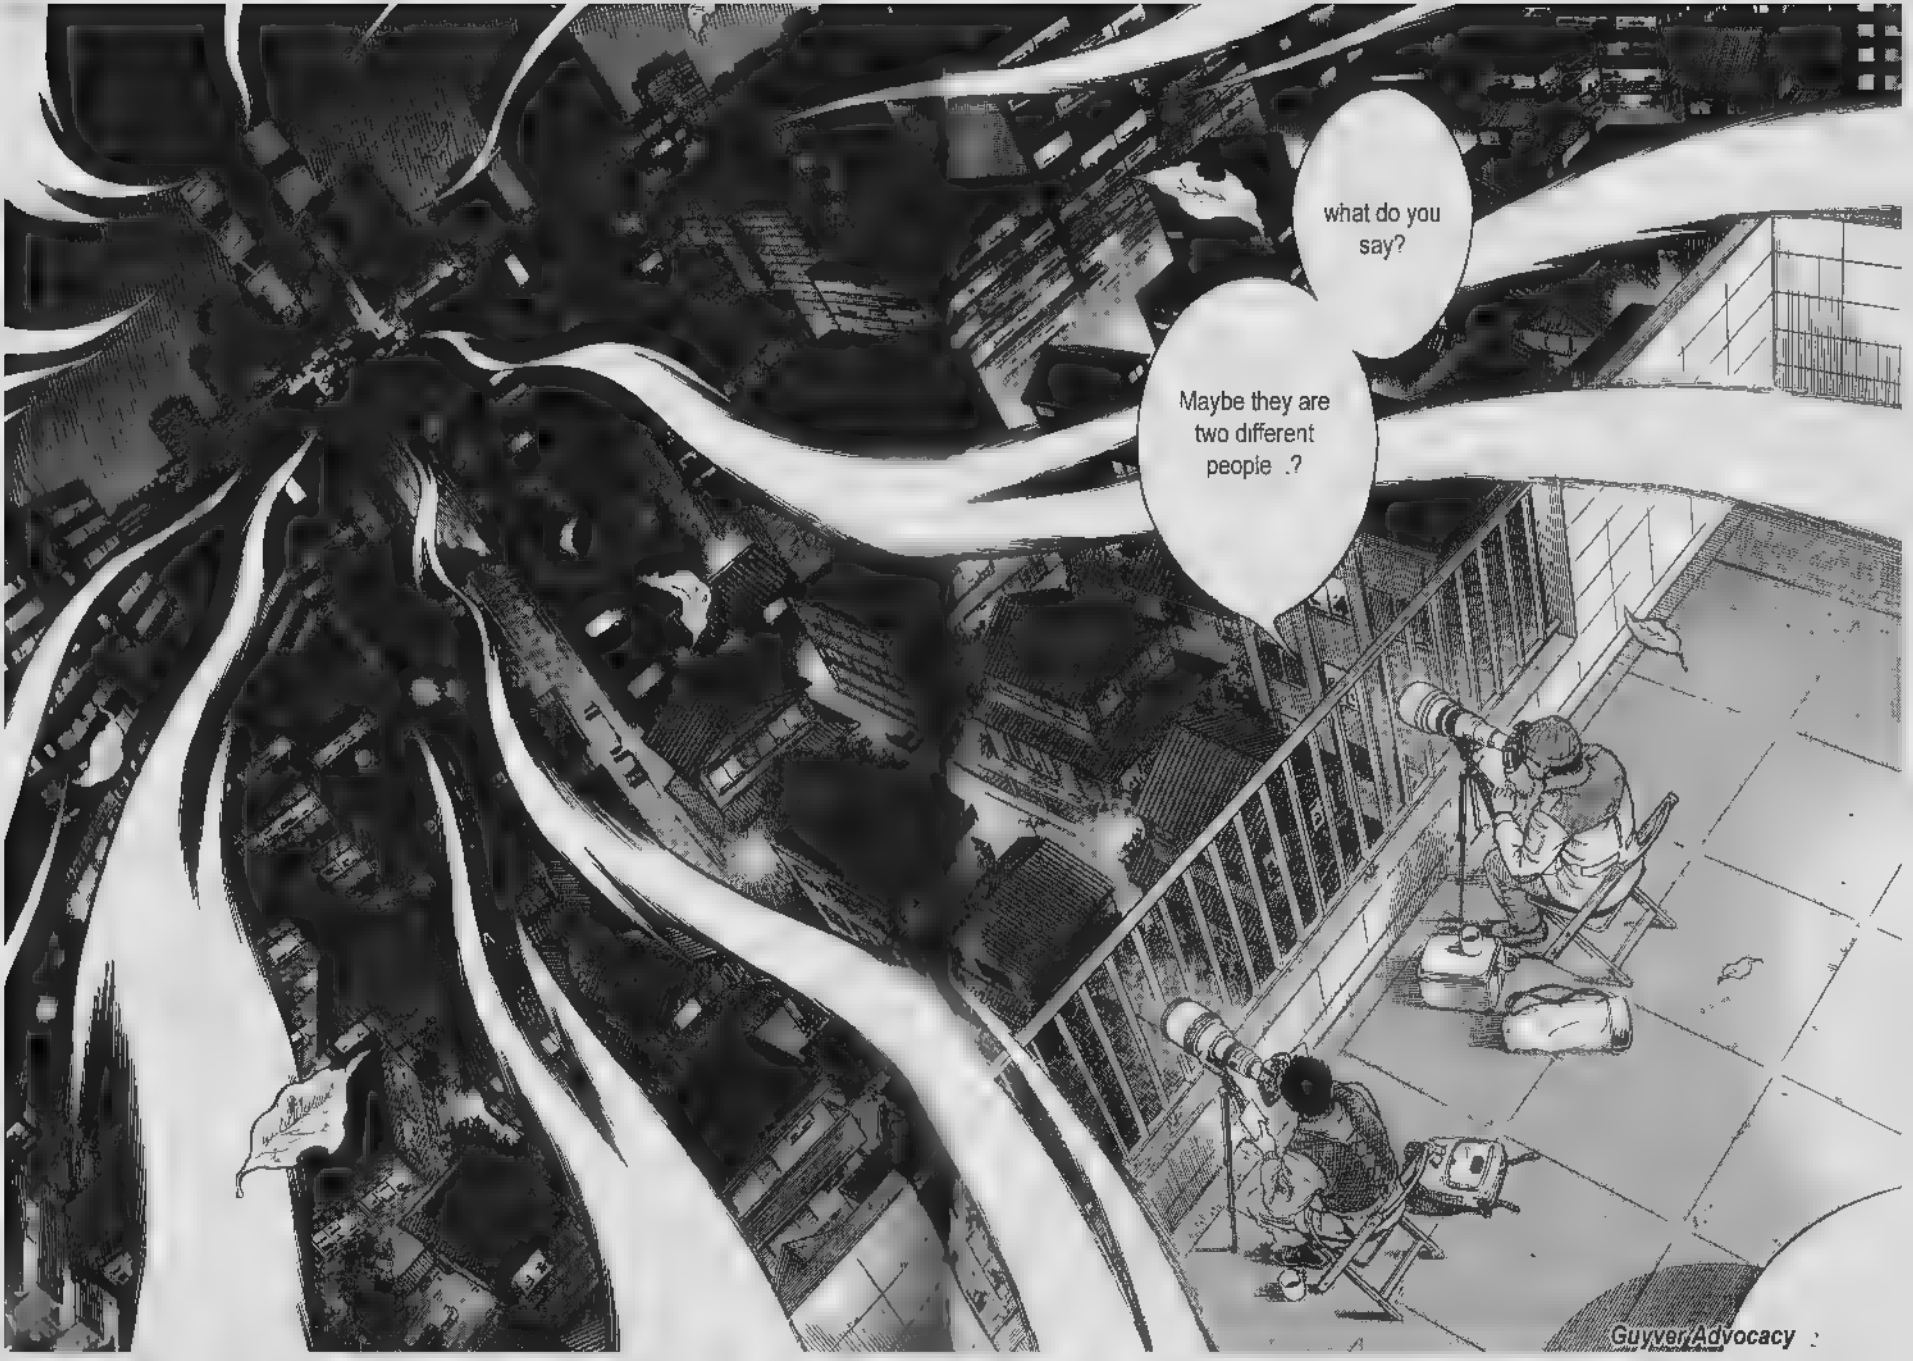
I final y come to my main point
The zoalord that fought guyver, in the skies of tokyo bay, 6 months ago?
do you remember, Tokiwadaira
eh?
yes, I think he was ca led Imakarum Mirabilis!
Ahh, Ehm
He hid his eyes w th a strange type of shades d d he not?

and th s
is a photo taken at that instant
for just a moment, his face was revealed!
but how d d you get such a thing?
This is the true face of Imakarum?!
A friend of mine was doing some guyver photography and managed to get th.s
I paid him a lot for this copy
It wasn't me that took it .
you haven t released it, sempai ?

at first he fought against guyver without transforming
and makarum ..
but in a moment of careless-ness
his mask was broken by a hit from guyver

It is the man that disappeared in New Guinea, the friend of mine from university
by the name of
Masaki Murakami

but this
Now take a look at this
!!
Then this man is
that WAS taken by me
seven years ago
at the time my friend eft japan
that s right



what do you say?
Maybe they are two different peopie .?

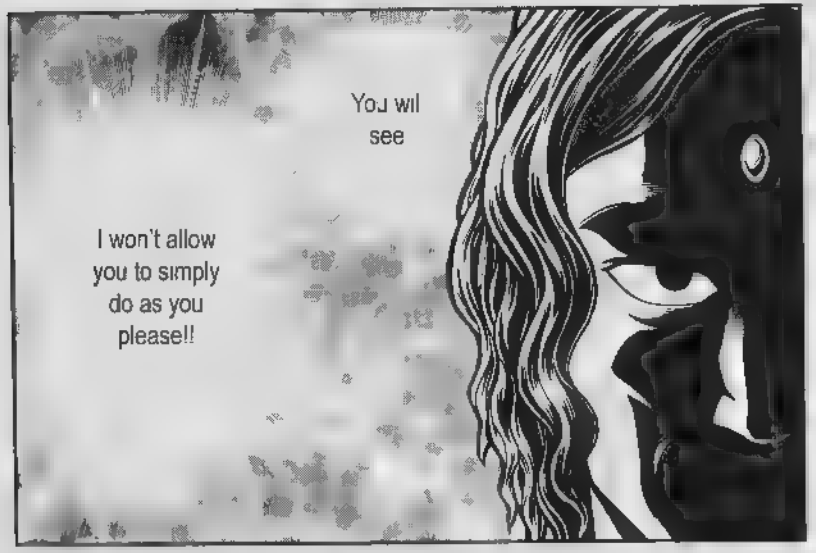
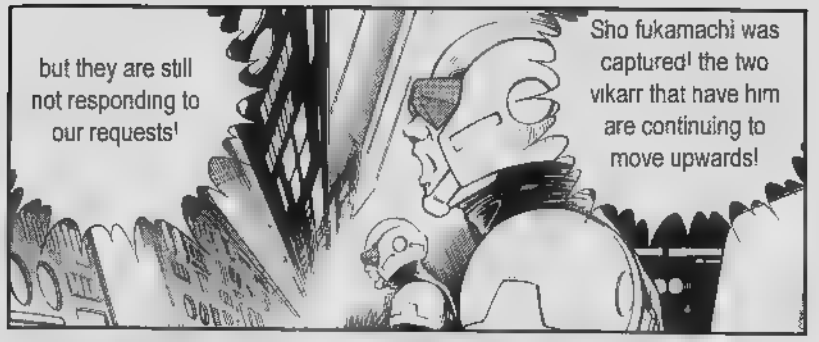
f sho fukamachi should die here
Certain y, these three are going to behave cautiously
all their efforts would be for naught

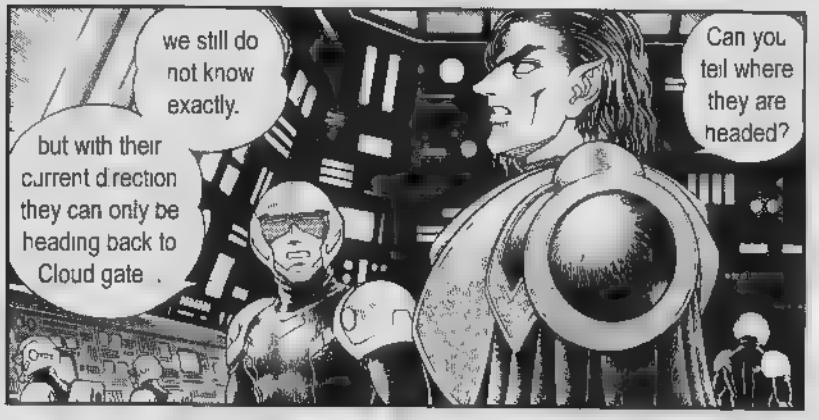
When they capture Fukamachi wil take him and guard him under my responsibility
but for me, the opportune moment has arrived to dis- cover the r evi deeds



You wil see
I won't allow you to simply do as you please!!



but they are still not responding to our requests!
Sho fukamachi was captured! the two vikarr that have him are continuing to move upwards!

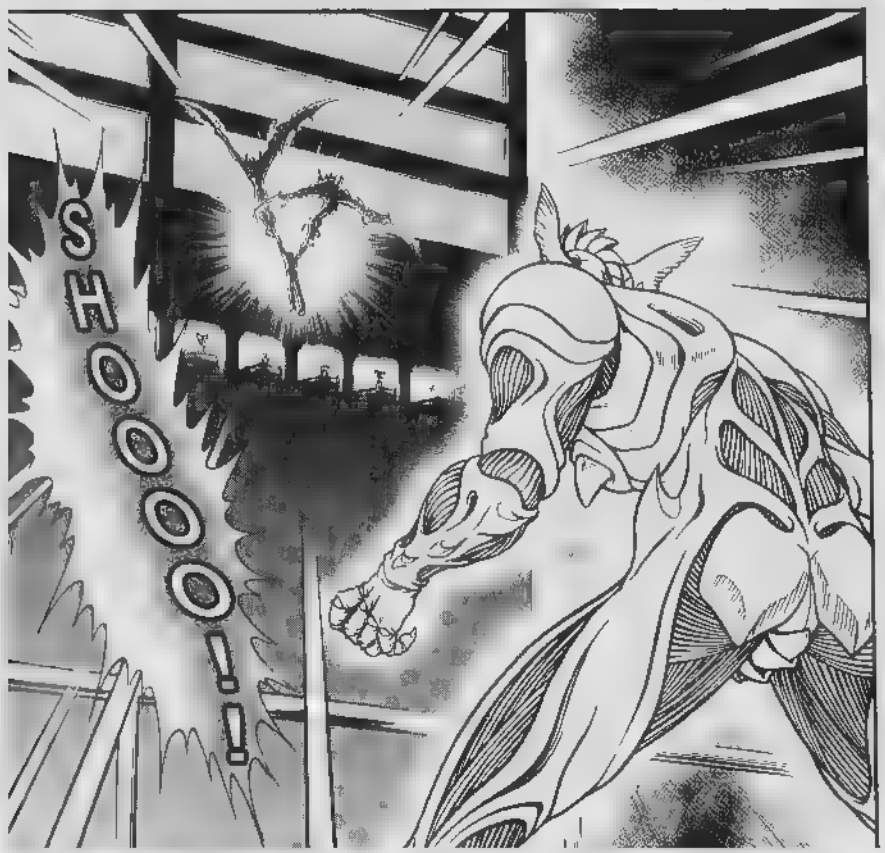


we still do not know exactly.
but with their current direction they can only be heading back to Cloud gate .
Can you tell where they are headed?

Jabir, Kurumegnik and Kablar

What are you up to

WAKE UP, SHO!!
Sho!! Wake up!!



SEOOOOO-!!

Sho - Kun!!
Sho!!!!
You cannot be captured !!!
No!!

Tsk... You still avoided it, eh?
UH
Any attempt at resistance is Useless!!
You really don't know how to admit defeat!
Even if you continue to resist...
You will never defeat this aptom that is under my control
Sho Fukamachi is now in our hands...

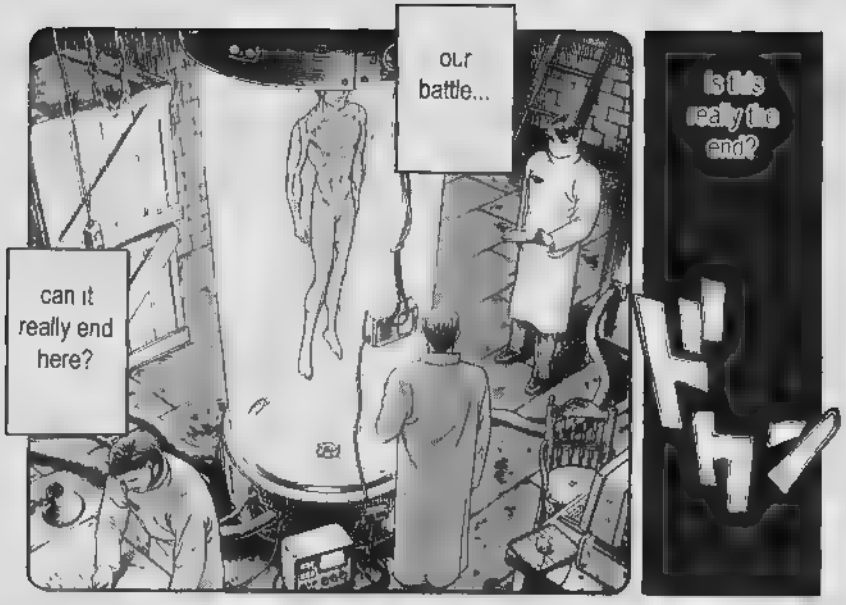
Guyver Advocacy



our battle...
can it really end here?
Is it really the end?

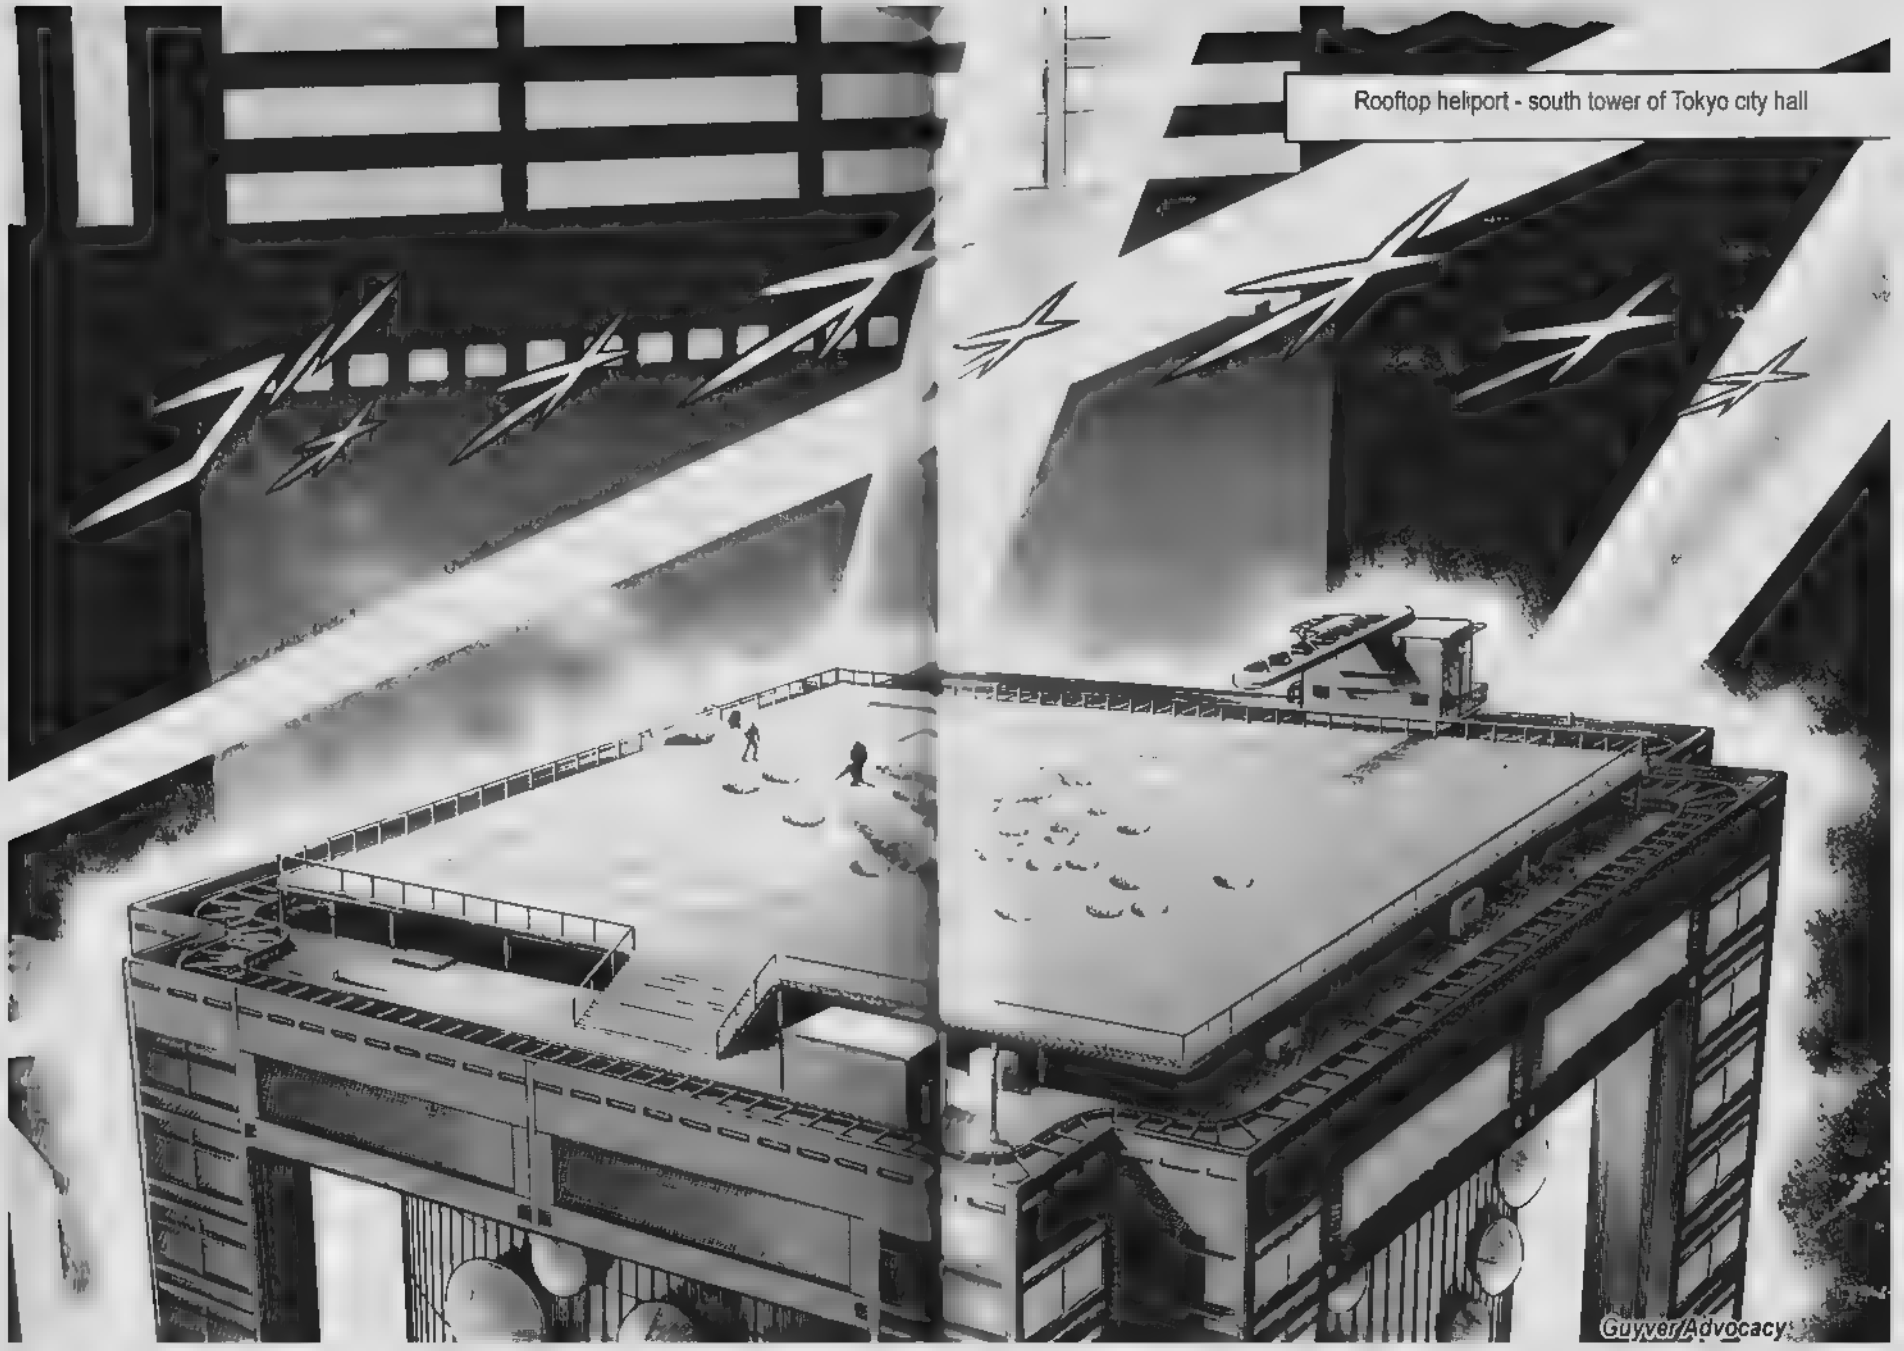
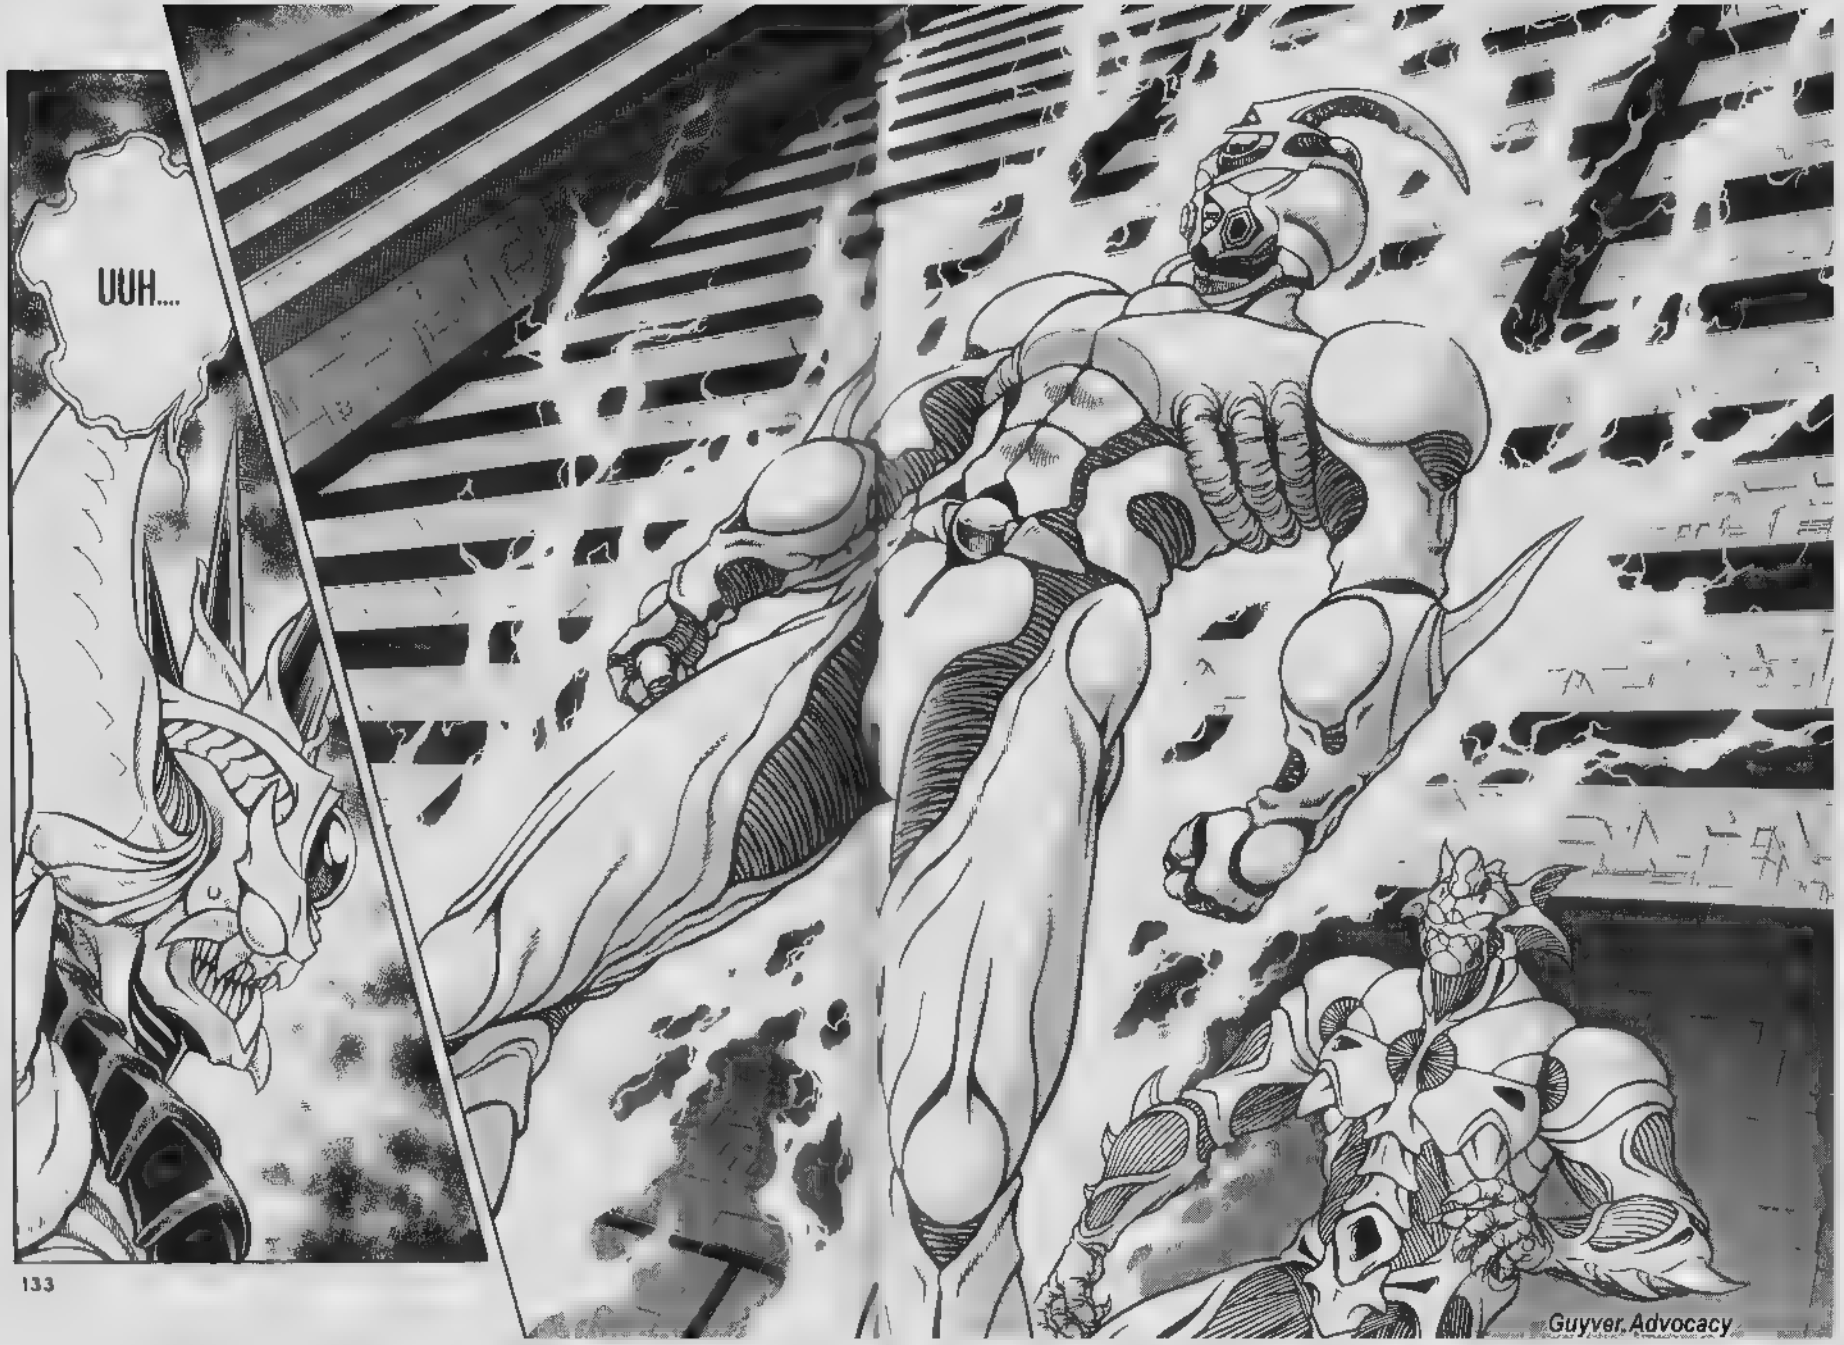
THE COUNTERATTACK OF GUYVER - 1



Rooftop heliport - south tower of Tokyo city hall
Guyver Advocacy

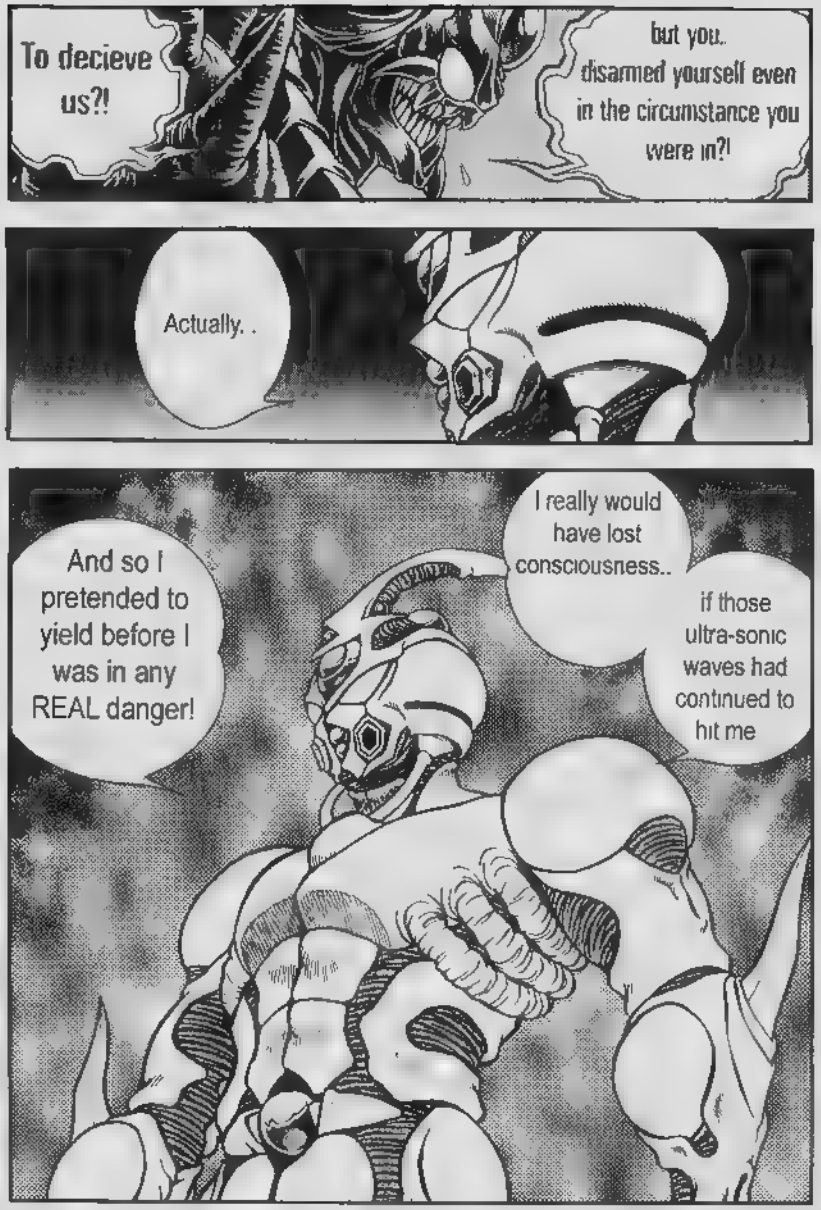


UUH....

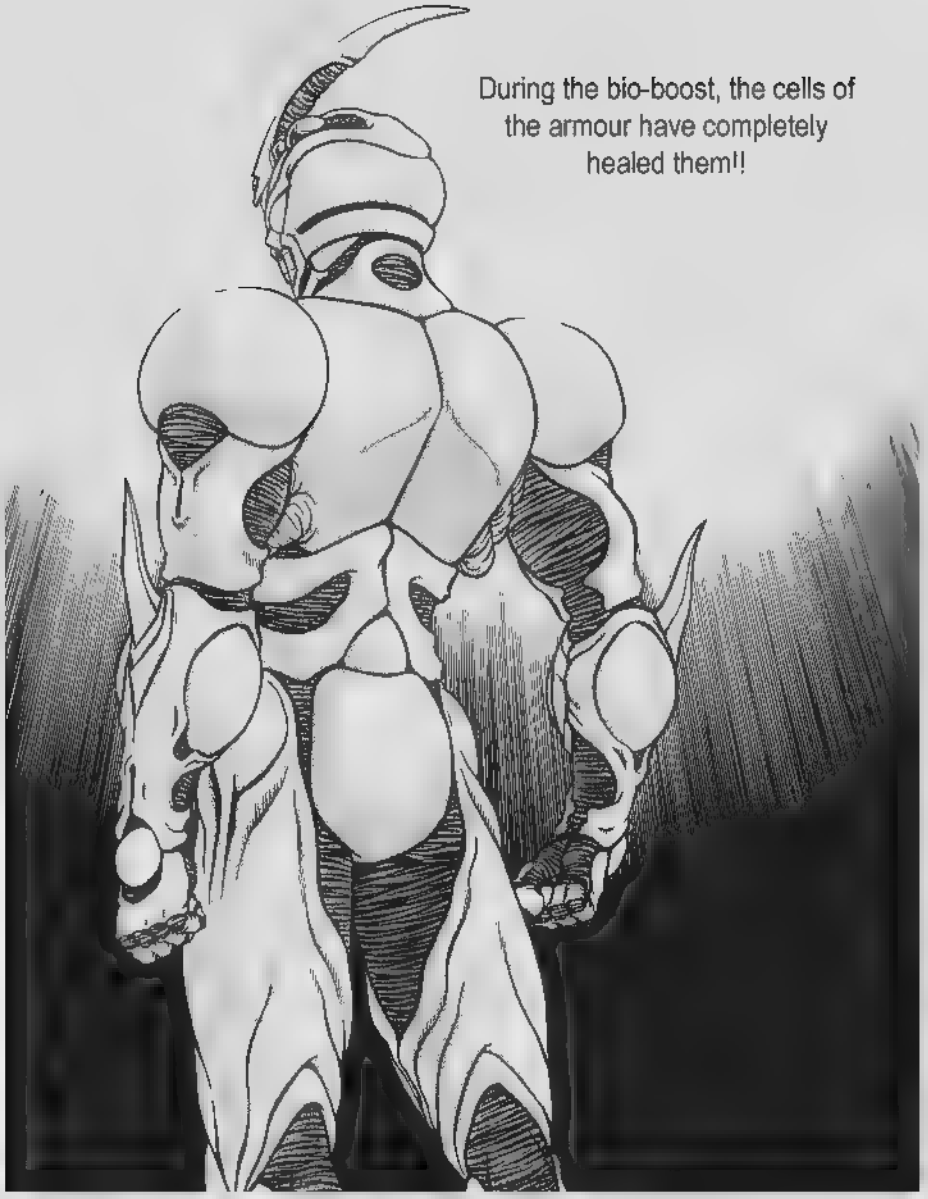
Hayami
But you
Sho
But I had no other choice
Hayami
am really sorry to make you worry
WHA...
I had to set a trap
To kill ALL the zoanoids that had us cornered

You Bastard!
But how?

!!
I deliberately had them capture me
And I pretended [illegible] fainted
I destroyed the two Vikarr that had captured me
you saw the rest
and then
At the right moment, when the vikarr were in range of the head beam
I called the armour again
then while the other vikarr were shocked
I threw my head beam continuously!



To decieve us?!
but you disarmed yourself even in the circumstance you were in?!
Actually. .
And so I pretended to yield before I was in any REAL danger!
I really would have lost consciousness..
if those ultra-sonic waves had continued to hit me

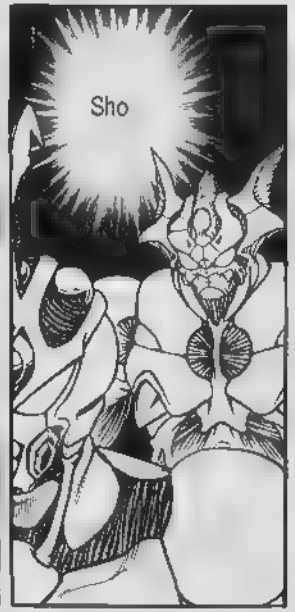


During the bio-boost, the cells of the armour have completely healed them!!

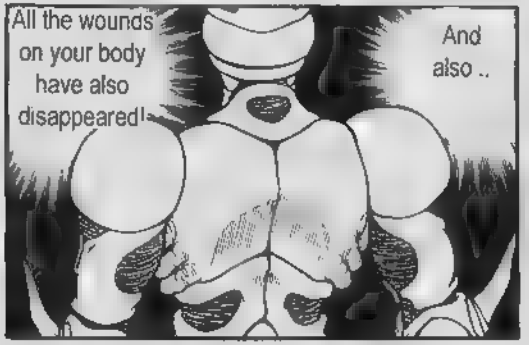
I fired my sonic buster at the Vamore in the marksmen windows!
then finally ..

Curse you...
you..

putting yourself in such a critically dangerous position...
I would never have imagined such a great dea



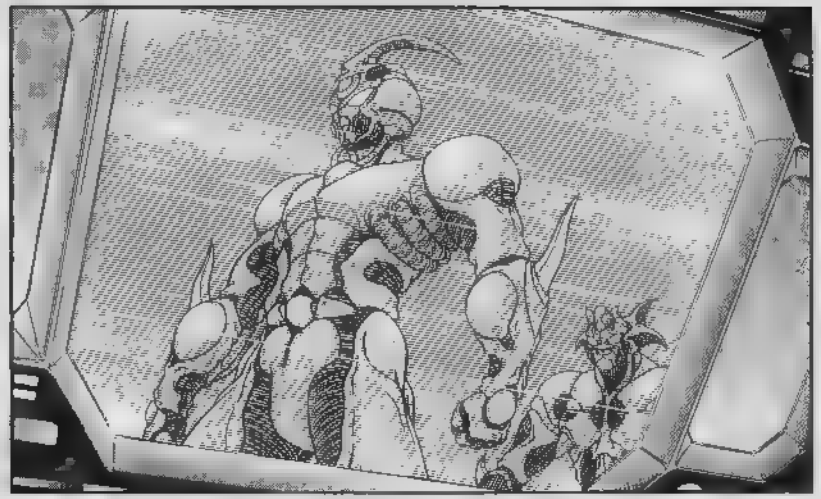
Sho



All the wounds on your body have also disappeared!
And also ..

or rather, zoalord Kablar...
and now I get to you aptom

I will put an end to this battle!!
before anything else gets in my way...

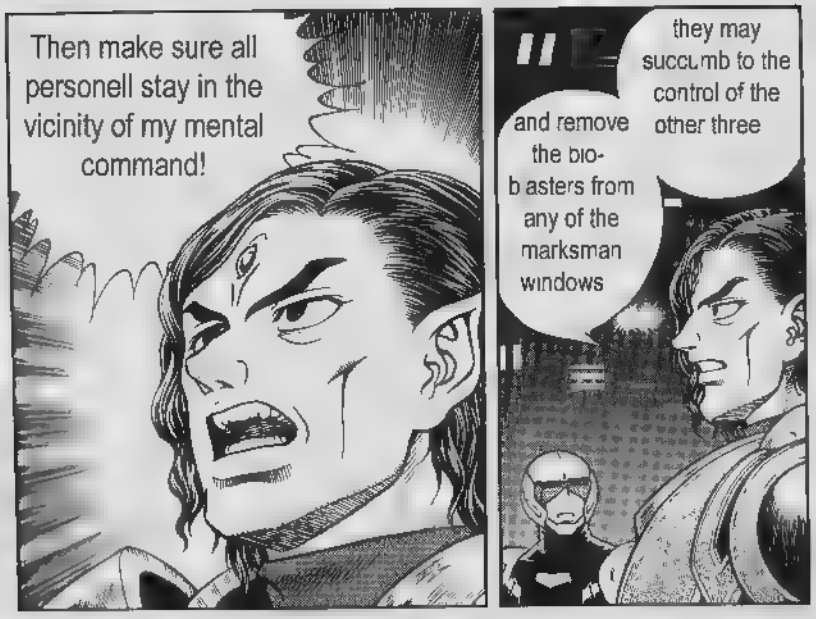


mpressive

He managed to completely fool us .
me .
and those other three divine lords .

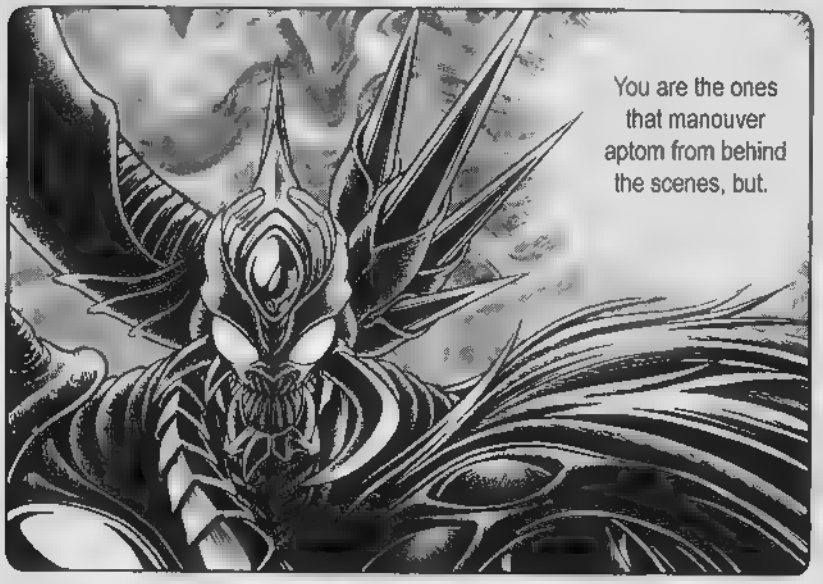
f the ultra-sonic waves have even a small effect on the guyver
do you want us to send off the survivors of the vikarr squad?
Exce lency!

no not right now



Then make sure all personell stay in the vicinity of my mental command!
and remove the bio-b asters from any of the marksman windows
they may succumb to the control of the other three

Jabir,
Kurumegnik
and Kablar
well .
you made
your
move .



You are the ones
that manouver
aptom from behind
the scenes, but.

or
Sho Fukamachi
Is smarter than we
believed..
It seems
that
is you...

We will see
how capable
you really
are!

So , you want to
conclude our
snotty battle...
Heh.
Heh Heh...

Sho?!
Hm?

so you have decided...
to seriously attack aptom, a friend of yours...
Interesting.

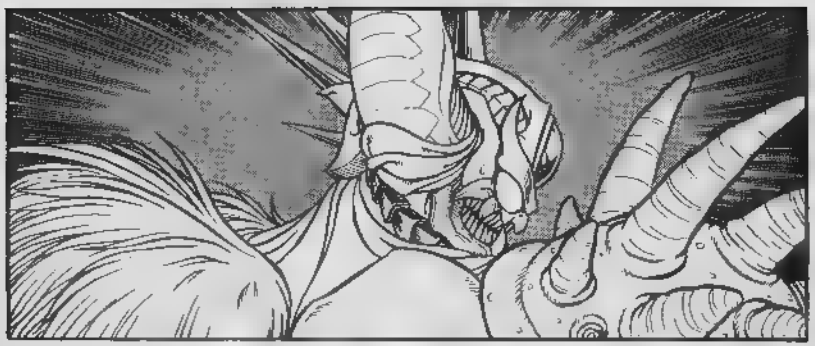
Well, come try us then!!!
Even now, you still won't do much damage!!

第140話 "奪還"の糸口
THE CHANCE TO REGAIN APTOM

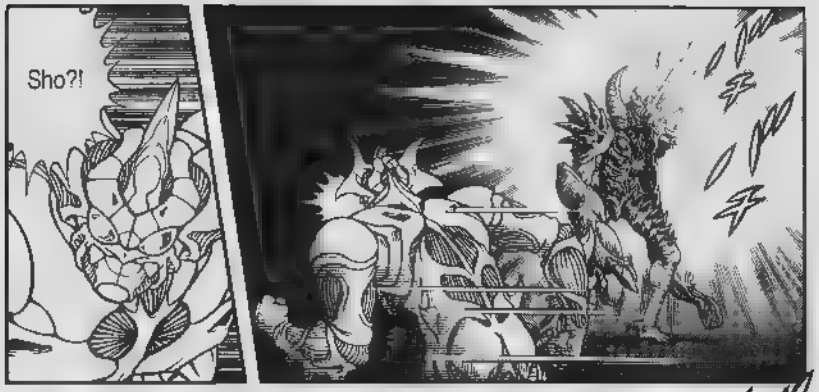
I will return the real aptom!!
I want to put an end...
To this absurd battle!!

the weak po nt of the hi- frequency spear
is that it has a linear movement
when its elastic arm is fully extended
t takes a moment to eturn to its orginal pos tion
I don't have time to return the arm to its position...
Ah..

Guyver Advocacy



uhr...



Sho?!

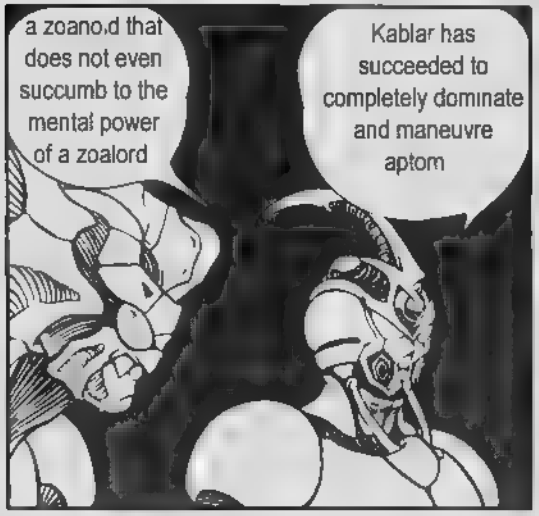
Huh?

?
al you do
is fire
that
again

.....
!!

That punk is getting too clever

damn it...
the hi-frequency spear is pretty useless now..

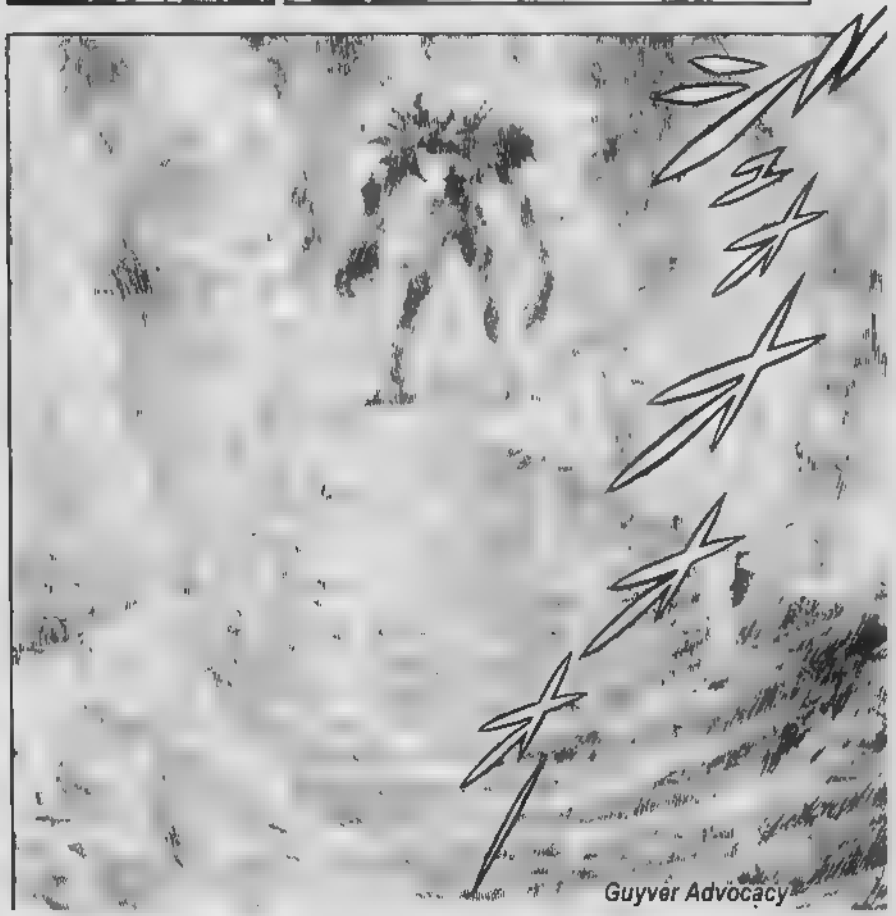


a zoanoid that does not even succumb to the mental power of a zoalord
Kablar has succeeded to completely dominate and maneuvre aptom

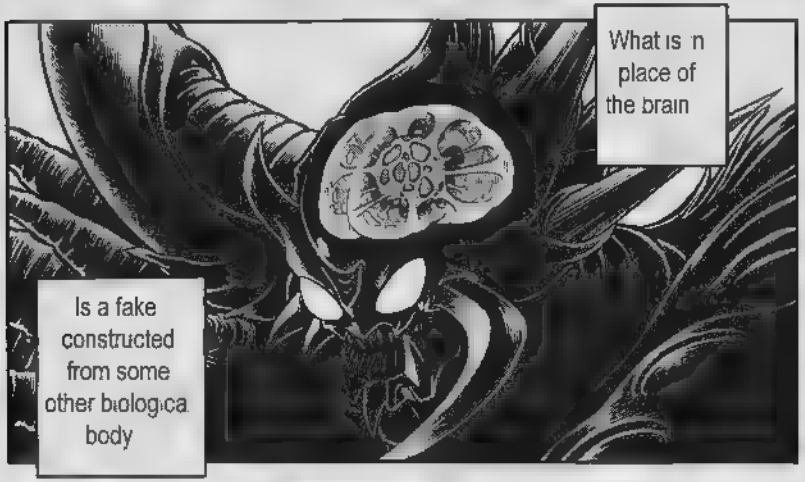
I've thought throughout this battle

that confirms what I suspected

he fired it in the wrong direction
but this time



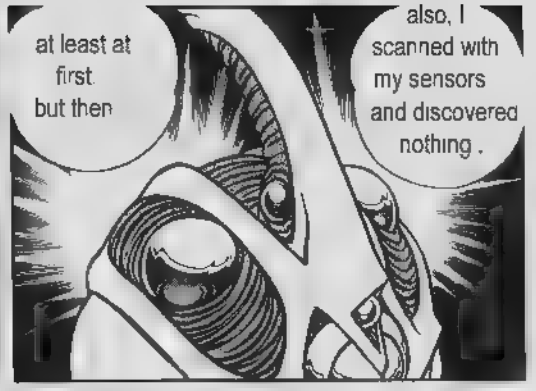
What?!
Wh



What is in place of the brain
Is a fake constructed from some other biological body

That kind of thing is in his body?
How does it exist without getting absorbed by aptoms cells?
Hey, Wait a minute!!

I noticed something strange.

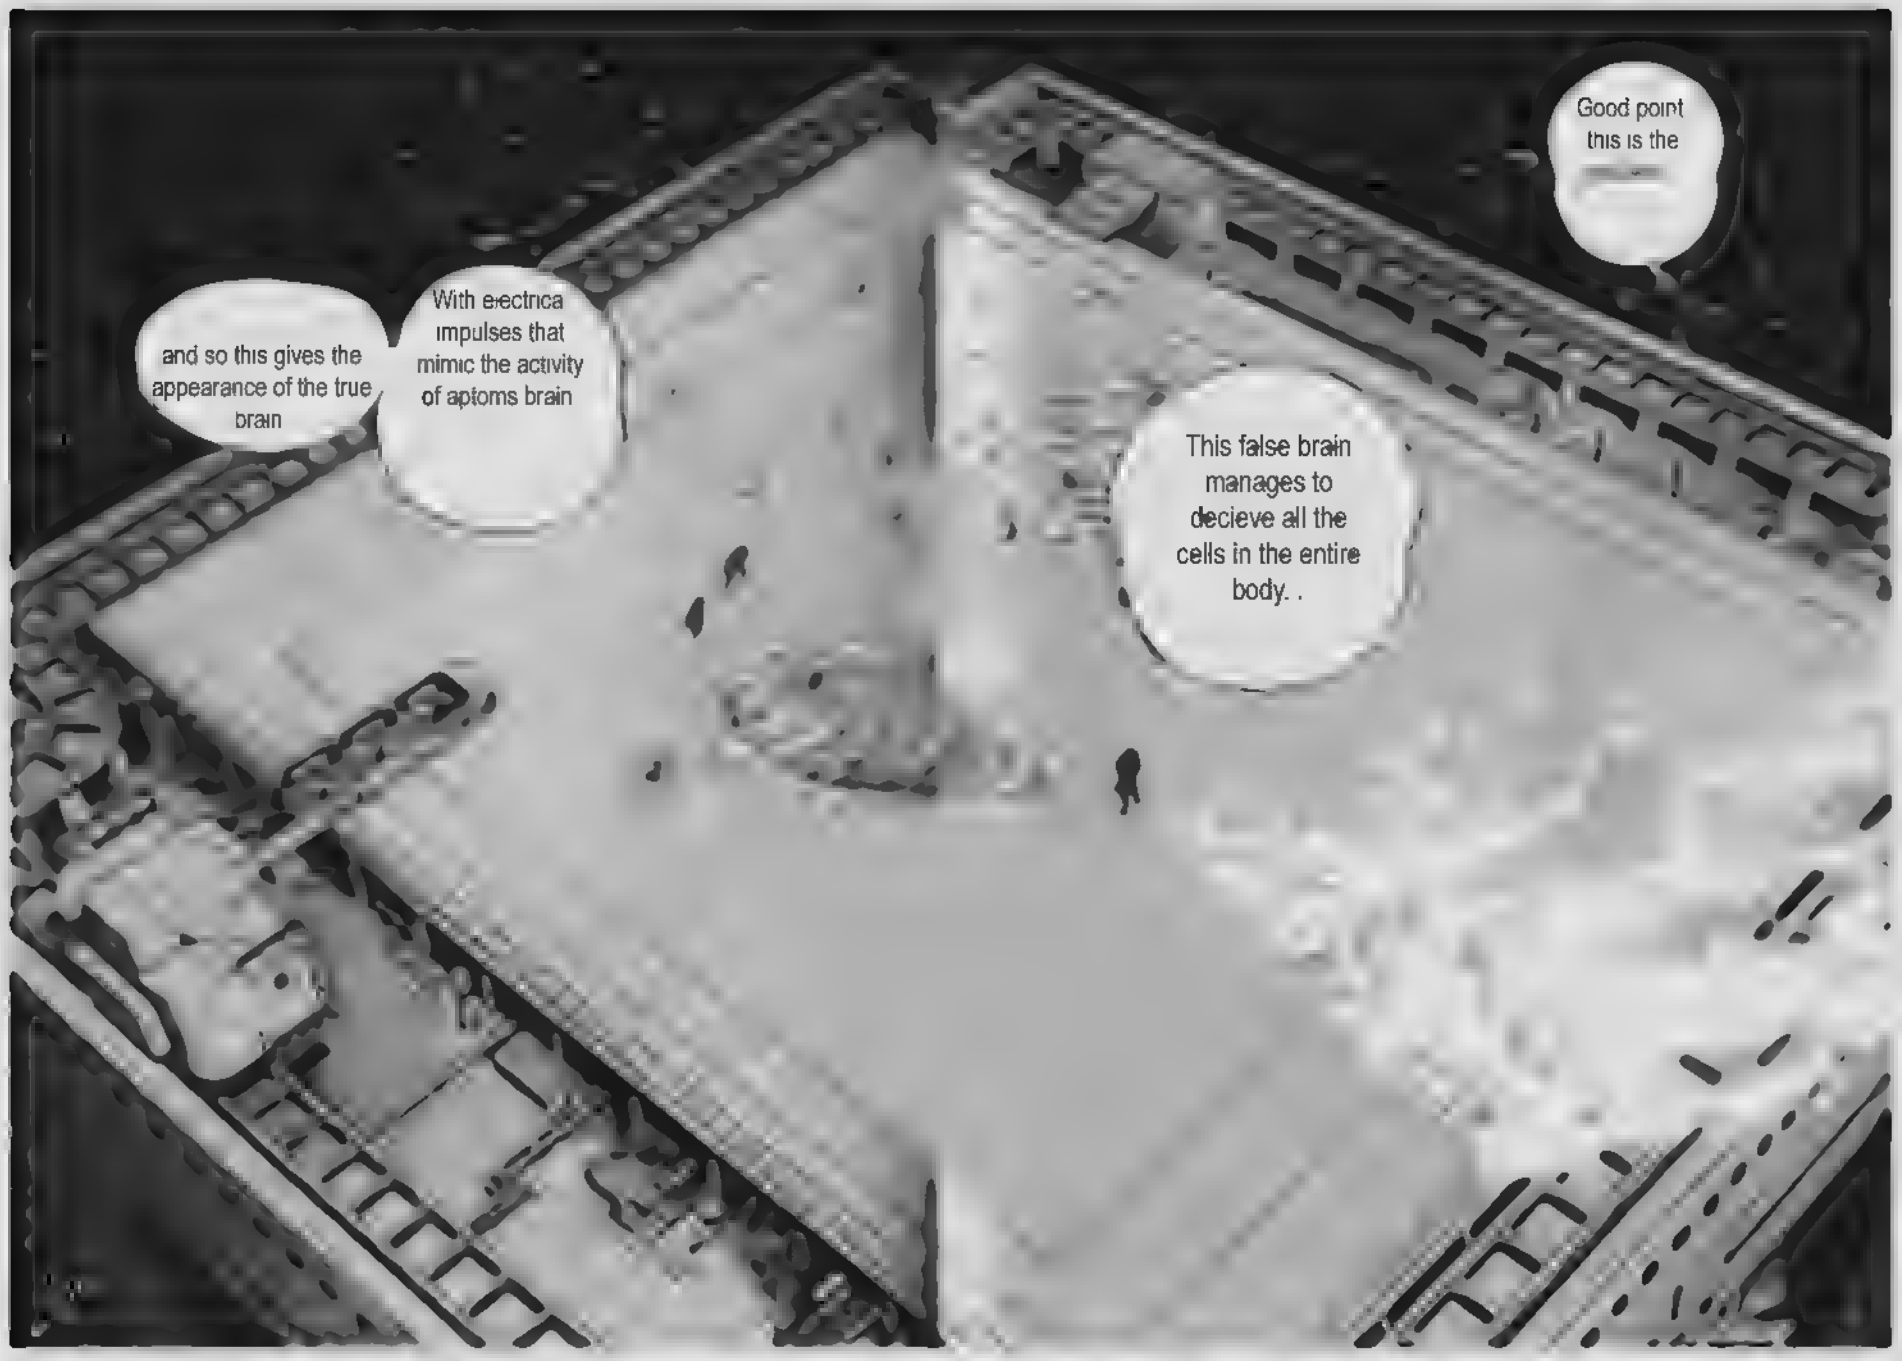


at least at first but then
also, I scanned with my sensors and discovered nothing .

yes about his brain

something strange ?

Has" No Brain!!
That Aptom は



Good point this is the
and so this gives the appearance of the true brain
With electrica impulses that mimic the activity of aptoms brain
This false brain manages to decieve all the cells in the entire body. .

they are pretty devious
bastards
we were present throughout the whole regeneration of aptom
They didn't have even an instant to do it
but
when could they have introduced that false brain?
!!
I suppose the body of that hyperzoanoid.
was specially prepared just for this reason

the cells percieved the presence of the brain
and so they did not regenerate it
also when the body of aptom was reconstructed
so the false brain that is installed in aptoms body
acts as a terminal to kablar who is in a position suited to observation

as a trap for aptom... and waited there for us to arrive.

so it had been created from the start

Why kablar used the particle cannon twice...

even though, it left him vulnerable and seemed like a useless attack

now I understand..

so that's why...

any material that had been cut from aptoms body.

because ....

he needed to burn it as soon as possible.

that would end in regeneration of the real brain

yes. any disruption in the mental control would result in an 'ontogenesis'.. the cells would rapidly evolve into more complex forms..

and then risking the return of the real aptom...

Thats what they are afraid of. I am certain of it.

well ...
we should try and obtain a piece of material.. sufficient to provoke an ontogenesis.
Right!
and if we can protect it from the attacks of our enemy, then it should restore our aptom...
If all goes well...

ワフェルダノス

WAFERDANOS

Height: 307cm
Weight: ?kg

He is able to remove the zoa crystal from his forehead with his bare hands. In this state he is no longer a Zoalord.

his limbs are usually hidden under his armor that he controls at will. The original form of Waferdanos does not have either legs or feet.

He is another biological experiment, created by the ancient visitors. He is provided sentience, composed from a form known as "king", from the "subjecti" followers of the "king" and from a forest, which is bred from the roots of the "king". When these three components unite they give life to the biological lifeform called "Waferdanos".

It was created in order to change the atmosphere for the immigration of new lifeforms onto the planet as opposed to acting as a weapon. Thanks to the zoacrystal given to him by Doctor Balcus the "king" can directly harness the energy of the forest and its subjects. This experience allows the use of his natural energy to manifest in a human form. For this reason he is unique among the other zoalords.
